Form 1023-EZ would offer a significant reduction in time, money and paperwork for many small
nonprofit organizations. An organization I work with recently filed for tax exempt status and this form would have made it easier and could have saved hundreds of dollars and many hours of time

I feel that therwe will also be a decreased burden on the IRS in evaluating Form 1023 applications. The Form 2013-EZ is a positive step in the right direction for reducing the burden of tax exempt application especially for small, all-volunteer charities.

Grace and Peace to you,
