Subject: Marriage Question on ACS
Date: Monday, May 06, 2013 9:36:05 PM

Dear Dr. Harris-Kojetin,
I found out today that the Census Bureau plans to stop requesting information about how many times people have been married in the ACS. As a historian, this kind of information is invaluable in discussing marriage in the United States, how likely people are to divorce, and how likely people are to marry several times.
I would like to request that you reconsider the decision about the question.
Thank you.
Sincerely,
Stephanie
