Subject: Draft 2012 Part D Reporting Requirements for Comment
Date: Monday, May 09, 2011 12:03:08 PM

Thank you for the opportunity to comment on the draft 2012 Part D Reporting Requirements. We have the following comment:

Part D Reporting Requirements - Page 5
CMS indicates in the summary table of revisions to the Part D reporting requirements #11 that the enrollment disenrollment section introduction was revised due to CMS' enrollment processing changes effective 4/18/11. However, on page 5 of the Part D Reporting Requirements draft, with regard to enrollment it says "Data elements 1.A-1.P must include all enrollments (60, 61, 62 and 71 transactions)." However, we thought only 61 would remain after the release.

Thank you,
Amy Luhmann
