Subject:	Marriage/Divorce question on the American Community Survey
Date:	Wednesday, May 08, 2013 11:28:42 AM

Dear Dr. Harris-Kojetin,

I'm writing to request that the American Community Survey retain its question about number of times married.

I have worked in a depository library for several years and am a strong supporter of Census data's value to the social sciences. I believe that this question adds important information to sociological studies.

Thank you for your consideration!

Sincerely,
Brian Boling
