Hi Dr. Harris-Kojetin,

I'm writing as an IPUMS user to request that you do not drop the question "number of times married" from the American Community Survey. It is an essential question for the study of marriage over time and I encourage you to keep the question so that researchers can continue to ferret out valuable insights into what makes marriages succeed or fail (and other related questions). Please retain "number of times married" as a question in the American Community Survey.

Thank you.

Regards,
