Subject:	regarding American Community Survey
Date:	Sunday, May 12, 2013 5:39:35 PM

Hello, Dr. Harris-Kojetin:
I recently became aware that the Census Bureau may drop a question regarding number of times married. As a researcher on American families, I hope this question remains in the American Community Survey. It is vital to research like mine that focuses on families, domestic violence and social welfare so I urge you to keep this question in order for research to continue to provide adequate scholarship on the United States population.

Thank you,
Olivia
