Please see comments below regarding the updating of Standard Form 299:

1) Somewhere in the area of the form between fields 6 and 7 should add the question of "Has the applicant obtained or is eligible to obtain financing for this specific facility pursuant to the Rural Electrification Act of 1936, as amended? (This includes RUS loans made by the Telecommunications Infrastructure Loan Program under Title II and III of the Rural Electrification Act of 1936 or by the Rural Broadband Loan under Title VI of the Rural Electrification Act of 1936), Yes or No? If yes, provide the borrower designation and loan designations under which the facility was financed and the year the loan was made (i.e., MT 500 Q loan, 1987)"

2) Included in field 20 should be the request, and space, to provide the name(s), title(s), email address(s), telephone number(s) and mailing address(s) of the contacts at the Federal Department(s)/Agency(ies) where this application is being filed if they are known through prior contact or referral.

Good Afternoon Laurel and Chad,

I currently participate in the Streamlining Federal Permitting (SFP) Workstream, which is the interagency workgroup that exclusively discusses efforts toward streamlining policies, regulations, and processes for permitting telecommunications projects.

As participants from GSA and USFS are on the call, the email below was distributed to the group concerning proposed changes to the SF-299 permitting application.

It was determined on the call today, that the link to the changed SF-299 form was unintentionally left off of the Federal Register Notice. Joey Perry, from the U.S. Forest Service informed the group that while this mistake has been noted, they will not extend the comment period for this notice which ends on June 24. The agencies have instead decided to send the form to individuals who inquire/by request. She has since sent the form to the Workstream (see attached).

Please review the attached Federal Register Notice and corresponding SF-299 form, as I believe your borrowers may be affected by these changes.

Best,

Alex Anderson

Colleagues,

First, my apologies in the delay to send this to the group. FYI, attached is the Federal Register Notice, requesting public comment on the SF-299.

Another major hurdle crossed. Thanks to GSA and FS on the hard work on getting this out the door. Also, thanks to the group for providing input to the SF-299. Everyone's efforts are greatly appreciated regarding this form, and the work stream in general!
