GENERAL INSTRUCTIONS

Every person who is required to file a distilled spirits formula under 27 CFR Parts 5, 19, and 26 will submit this form to the Advertising, Labeling, and Formulation Division, Alcohol and Tobacco Tax and Trade Bureau, 1310 G Street, NW, Box 12, Washington, DC 20005. Permit approval and formula approval are required prior to manufacture of any product requiring a formula. Production may begin when the proprietor receives an approved formula on TTB F 5110.38.

The number of copies to be filed is as follows: Two copies for TTB's records, and either one additional copy, or one additional copy for each manufacturing facility identified in Item 2.

If the formula is approved, two copies will be retained by TTB and the remaining approved copy(ies) will be sent to the addressee. The addressee will forward approved copies (or two-sided reproductions) to each facility identified in Item 2. The copy(ies) must be retained for 3 years.

SPECIFIC INSTRUCTIONS

Item 1. The class and type must agree with one of the class and type designations in the regulations issued under the Federal Alcohol Administration Act, except for distilled spirit specialties or cocktails which may be designated as such for formula approval. Do not show a brand or fanciful name.

Item 2. Enter the name, complete address, and plant number of the applicant and the city, STATE, and plant number for all other plants where the product will be manufactured.

Item 3. If the product will be bottled at more than one proof, state the alcoholic content as a range to include all proofs at which the product will be bottled.

Item 4. Enter DSP number and formula number for each formula which is superseded.

Item 5.

- (a) List all ingredients which will be used. Flavoring or blending materials must be identified by flavor title, and the name and address of the manufacturer or the importer; if alcoholic, the percentage of alcohol by volume and the manufacturer's commercial formula number; or if approved on TTB F 5110.38, the formula number and date of approval.
- (b) Identify all coloring agents added directly to the product or contained in flavoring materials. Certified food colors must be identified by FD&C number, for example "FD&C Yellow No. 5."
- (c) If any type of wine (including vermouth) is to be used in the product, state the kind, percentage of wine to be used, whether the wine is domestic or imported, whether the wine contains added wine spirits, and the percentage of alcohol by volume of the wine.
- (d) If the finished product is to be labeled as containing a particular class and type of distilled spirits (such as "Blackberry Liqueur & Brandy" or "Coffee Liqueur & Non-Dairy Creamer"), the ingredients used to produce the particular class and type of distilled spirits must be listed in a manner so that they are distinguishable from the remaining ingredients for the finished product.

Item 6. Number formulas in sequence. A proprietor of more than one distilled spirits plant must use a unique system of serial numbers which does not duplicate any formula number used at any plant prior to January 1, 1980.

CONDITIONS FOR FORMULA APPROVAL

This approval is granted under 27 CFR, part 5 and does not in any way provide exemption from or waiver of the provisions of the Food and Drug Administration regulations relating to the use of food and color additives in food products.

Addition of remnants or returned merchandise to a completed product made under the same formula is permitted.
