

**Certified Community Behavioral
Health Clinic (CCBHC)
Criteria Compliance Checklist**
Updated July 2023

Table of Contents

Program Requirement 1: Staffing1

- Criteria 1.A: General Staffing Requirements 1
- Criteria 1.B: Licensure and Credentialing of Providers..... 5
- Criteria 1.C: Cultural Competence and Other Training 7
- Criteria 1.D: Linguistic Competence 9

Program Requirement 2: Availability and Accessibility of Services11

- Criteria 2.A: General Requirements of Access and Availability 11
- Criteria 2.B: General Requirements for Timely Access to Services and Initial and Comprehensive Evaluation 13
- Criteria 2.C: Access to Crisis Management Services..... 15
- Criteria 2.D: No Refusal of Services Due to Inability to Pay 16
- Criteria 2.E: Provision of Services Regardless of Residence 17

Program Requirement 3: Care Coordination18

- Criteria 3.A: General Requirements of Care Coordination..... 18
- Criteria 3.B: Care Coordination and Other Health Information Systems 20
- Criteria 3.C: Care Coordination Agreements 22
- Criteria 3.D: Treatment Team, Treatment Planning, and Care Coordination Activities..... 25

Program Requirement 4: Scope of Services26

- Criteria 4.A: General Service Provisions 26
- Criteria 4.B: Person-Centered and Family-Centered Care 28
- Criteria 4.C: Crisis Behavioral Health Services..... 29
- Criteria 4.D: Behavioral Health Screening, Assessment, and Diagnosis..... 31
- Criteria 4.E: Person-Centered and Family-Centered Treatment Planning 34
- Criteria 4.F: Outpatient Mental Health and Substance Use Services..... 36
- Criteria 4.G: Outpatient Clinic Primary Care Screening and Monitoring..... 38
- Criteria 4.H: Targeted Case Management Services 40
- Criteria 4.I: Psychiatric Rehabilitation Services 41
- Criteria 4.J: Peer Supports, Peer Counseling, and Family/Caregiver Supports 42
- Criteria 4.K: Intensive, Community-Based Mental Health Care for Members of the Armed Forces and Veterans..... 43

Program Requirement 5: Quality and Other Reporting45

- Criteria 5.A: Data Collection, Reporting, and Tracking..... 45
- Criteria 5.B: Continuous Quality Improvement (CQI) Plan..... 47

Program Requirement 6: Organizational Authority, Governance, and Accreditation49

- Criteria 6.A: General Requirements of Organizational Authority and Finances 49
- Criteria 6.B: Governance 50

List of Acronyms

CCBHC: Certified Community Behavioral Health Clinic
CEO: Chief operating officer
CQI: Continuous Quality Improvement
DCO: Designated collaborating organizations
ED: Emergency department
HHS: Health and Human Services
HIPAA: Health Insurance Portability & Accountability Act
LEP: Limited English proficiency
SUD: Substance use disorder
VHA: Veterans Health Administration

Instructions

For each of the criteria on the checklist, please indicate the number of CCBHCs in your state that fall within each of the following categories:

1. Ready to implement
 - The CCBHC fully satisfies all elements under this Program Requirement Criteria.
2. Mostly ready to implement
 - The CCBHC satisfies almost all elements under this Program Requirement Criteria although some minor adjustments are currently in process to fully satisfy. The CCBHC has a plan to come into compliance within the required timeframe.
3. Ready to implement with remediation
 - The CCBHC satisfies some elements but must make significant improvements in other elements to fully satisfy this Program Requirement Criteria. The CCBHC is responsive to implementing the needed changes and has begun to do so. The CCBHC has a plan to come into compliance within the required timeframe.
4. Unready to implement
 - The CCBHC has not demonstrated capacity to meet the elements under this Program Requirement Criteria and will be unable to come into compliance within the required timeframe.

CCBHC Criteria Compliance Checklist 2023

This compliance checklist identifies the criteria required for a Certified Community Behavioral Health Clinic (CCBHC).

Program Requirement 1: Staffing

Criteria 1.A: General Staffing Requirements

1.a.1 Needs Assessment and Staffing Plan

Readiness Level				
Criteria 1.a.1	1	2	3	4
# of Clinics				

The CCBHC has completed a community needs assessment. The community needs assessment includes the following components:

- A description of the physical boundaries and size of the service area, including identification of sites where services are delivered by the CCBHC, including through DCOs
- Information about the prevalence of mental health and substance use conditions and related needs in the service area, such as rates of suicide and overdose
- Economic factors and social determinants of health affecting the population's access to health services, such as percentage of the population with incomes below the poverty level, access to transportation, nutrition, and stable housing
- Cultures and languages of the populations residing in the service area
- The identification of the underserved population(s) within the service area
- A description of how the staffing plan does and/or will address findings
- Plans to update the community needs assessment every 3 years
- Input with regard to:
 - Cultural, linguistic, physical health, and behavioral health treatment needs
 - Evidence-based practices and behavioral health crisis services
 - Access and availability of CCBHC services including days, times, and locations, and telehealth options
 - Potential barriers to care such as geographic barriers, transportation challenges, economic hardship, lack of culturally responsive services, and workforce shortages
- Input gathered from the following entities in the service area:
 - People with lived experience of mental and substance use conditions and individuals who have received/are receiving services from the clinic conducting the needs assessment

- Health centers (including FQHCs)
- Local health departments (Note: these departments also develop community needs assessments that may be helpful)
- Inpatient psychiatric facilities, inpatient acute care hospitals, and hospital outpatient clinics
- One or more Department of Veterans Affairs facilities
- Representatives from local K-12 school systems
- Other community partners
- Input should also come from other community partners who work with people receiving services from the CCBHC and populations that historically are not engaging with health services, such as:
 - Organizations operated by people with lived experience of mental health and substance use conditions
 - Residential programs
 - Juvenile justice agencies and facilities
 - Criminal justice agencies and facilities
 - Indian Health Service or other tribal programs such as Indian Health Service youth regional treatment centers as applicable
 - Child welfare agencies and state licensed and nationally accredited child placing agencies for therapeutic foster care service
 - Crisis response partners such as hospital emergency departments, crisis stabilization settings, crisis call centers and warmlines
 - Specialty providers of medications for treatment of opioid and alcohol use disorders
 - Peer-run and operated service providers
 - Homeless shelters
 - Housing agencies
 - Employment services systems
 - Services for older adults, such as Area Agencies on Aging
 - Aging and Disability Resource Centers
 - Other social and human services (e.g., domestic violence centers, pastoral services, grief counseling, Affordable Care Act navigators, food and transportation programs)
- Additional state required community needs assessment requirements if any have been established by the state.
- The CCBHC has completed a staffing plan that reflects the findings of the needs assessment.
- (Recertification) The needs assessment and staffing plan updated in the past 3 years or less.

1.a.2 Staff

Readiness Level				
Criteria 1.a.2	1	2	3	4
# of Clinics				

The CCBHC staff (both clinical and non-clinical) is appropriate in size and composition, and provides services appropriate for the population served.

Staffing satisfies the requirements of criteria 4.K for services to veterans.

1.a.3 Management Staffing

Readiness Level				
Criteria 1.a.3	1	2	3	4
# of Clinics				

CCBHC management staffing is adequate for the needs of CCBHC, as determined by the needs assessment and staffing plan.

The Chief Executive Officer (CEO) or equivalent of the CCBHC maintains a fully staffed management team appropriate for the needs and size of the clinic, as determined by the current needs assessment and staffing plan.

The management team includes a CEO or equivalent/Project Director and a psychiatrist as Medical Director.

- For a CCBHC without a psychiatrist, provisions are made for psychiatric consultation and a medically trained behavioral health provider with appropriate education and licensure to independently prescribe as the Medical Director.

The Medical Director provides guidance regarding behavioral health clinical service delivery, ensures the quality of the medical component of care, and provides guidance to foster the integration and coordination of behavioral health and primary care.

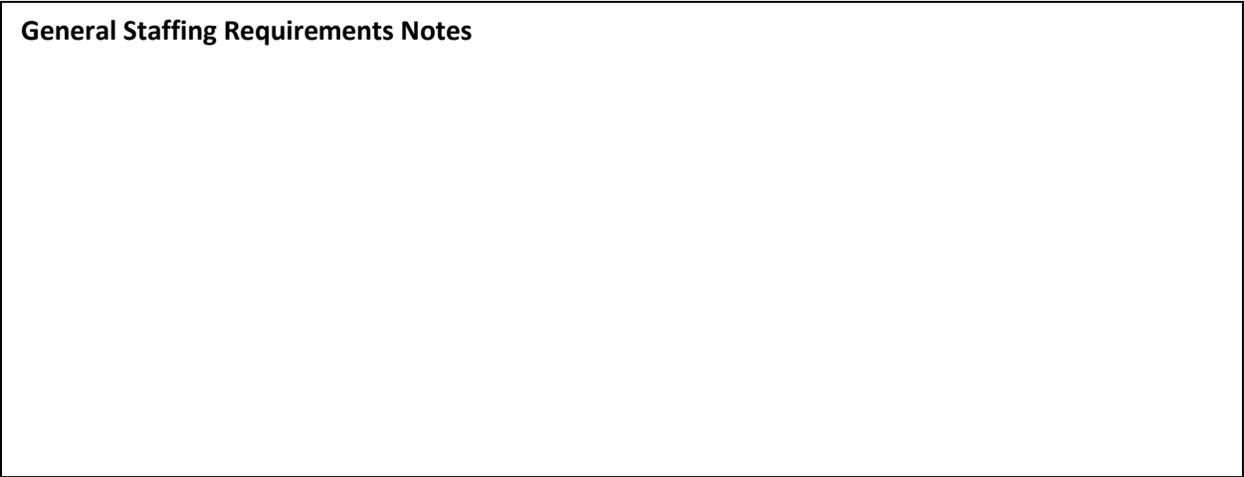

- If the CCBHC is unable to hire a psychiatrist and hires another prescriber instead psychiatric consultation is obtained regarding behavioral health clinical service delivery, quality of the medical component of care, and integration and coordination of behavioral health and primary care.

1.a.4 Liability/Malpractice Insurance

Readiness Level				
Criteria 1.a.4	1	2	3	4
# of Clinics				

The CCBHC maintains adequate liability/malpractice insurance.

General Staffing Requirements Notes

A large, empty rectangular box with a thin black border, intended for handwritten or typed notes regarding general staffing requirements. The box is positioned in the upper left quadrant of the page.

Criteria 1.B: Licensure and Credentialing of Providers

1.b.1 Appropriate Licensure and Credentialing

Readiness Level				
Criteria 1.b.1	1	2	3	4
# of Clinics				

CCBHC practitioners providing direct services furnish them within their scope of practice in accordance with all applicable federal, state, and local laws and regulations, including Medicaid billing regulations or policies.

Appropriate supervision is provided for CCBHC providers that are working towards licensure.

1.b.2 Required Staffing

Readiness Level				
Criteria 1.b.2	1	2	3	4
# of Clinics				

The CCBHC staffing plan meets requirements of the state behavioral health authority and any accreditation or other standards required by the state.

The staffing plan is informed by the community needs assessment and is appropriate to the needs of people receiving CCBHC service.

The staffing plan includes clinical, peer, and other staff and core staff comprised of employed and as needed, contracted staff. Staffing is appropriate to the needs of people receiving services at the CCBHC, reflected in individual treatment plans, and as required to meet program requirements of these criteria.

The CCBHC has a medically trained behavioral health care provider, either employed or available through formal arrangement, who can prescribe and manage medications independently under state law, including buprenorphine and other FDA-approved medications used to treat opioid, alcohol, and tobacco use disorders.

If the CCBHC does not have the ability to prescribe methadone for the treatment of opioid use disorder directly, it refers to an opioid treatment program (if any exist in the CCBHC service area) and provides care coordination to ensure access to methadone.

The CCBHC has staff, either employed or under contract, who are licensed or certified substance use treatment counselors or specialists.

The Medical Director has experience in the assessment and diagnosis of SUD, substance intoxication and withdrawal; pharmacological management of intoxication, withdrawal, and SUDs; ambulatory withdrawal management; outpatient addiction treatment; toxicology testing; and pharmacodynamics of commonly used substances.

- If the Medical Director is not experienced with the treatment of substance use disorders, the CCBHC has experienced addiction medicine physicians or specialists on

staff, or arrangements that ensure access to consultation on addiction medicine for the Medical Director and clinical staff.

The CCBHC has credentialed substance use treatment specialists either employed or under contract.

The CCBHC has staff with expertise in addressing trauma and promoting the recovery of children and adolescents with serious emotional disturbance and adults with serious mental illness.

The CCBHC supplements its core staff as necessary in order to adhere to program requirements 3 and 4 and individual treatment plans, through arrangements with, and referrals to, other providers.

The CCBHC has staff disciplines as required (if any) by the certifying state.

Licensure and Credentialing of Providers Notes

Empty box for notes.

Criteria 1.C: Cultural Competence and Other Training

1.c.1 Training Plans

Readiness Level				
Criteria 1.c.1	1	2	3	4
# of Clinics				

The CCBHC has a training plan for all employees and contract staff who have direct contact with people receiving services or their families.

The training plan satisfies and includes requirements of the state behavioral health authority and any accreditation standards on training required by the state.

At staff orientation and at reasonable intervals, the CCBHC provides training on:

- Evidence-based practice
- Cultural competency
- Person-centered and family-centered, recovery-oriented planning and services
- Trauma-informed care
- The clinic’s policy and a continuity plan for operations/disasters
- The clinic’s policy and procedures for integration and coordination with primary care integrated care of mental health and substance use disorders

At orientation and annually thereafter, the CCBHC provides training on:

- Risk assessment
- Suicide and overdose prevention and response
- The roles of families and peer staff

Trainings are aligned with the National Standards for Culturally and Linguistically Appropriate Services to advance health equity, improve quality of services, and eliminate disparities.

Trainings include information related to military culture, to the extent active-duty military or veterans are being served.

1.c.2 - 1.c.4 Skills and Competence

Readiness Level				
Criteria 1.c.2-4	1	2	3	4
# of Clinics				

The CCBHC regularly assesses and has written policies and procedures that describe the methods used for assessing skills and competencies of providers and keeps track of training provided for each employee.

The CCBHC maintains documentation of completion of training and demonstration of competencies within staff personnel records.

Individuals providing training to CCBHC staff have the qualifications to do so as evidenced by their education, training, and experience.

Cultural Competence and Other Training Notes

A large, empty rectangular box with a black border, intended for handwritten or typed notes regarding cultural competence and other training. The box is currently blank.

Criteria 1.D: Linguistic Competence

1.d.1 - 1.d.4 Meaningful Access

Readiness Level				
Criteria 1.d.1-4	1	2	3	4
# of Clinics				

The CCBHC takes reasonable steps to provide meaningful access to people with Limited English Proficiency (LEP) or with language-based disabilities.

Interpretation/translation service(s) are readily available, appropriate and timely for the size/needs of the LEP CCBHC consumer population (e.g., bilingual providers, onsite interpreters, language video or telephone line). To the extent interpreters are used, such translation service providers are trained to function in a medical and, preferably, a behavioral health setting.

CCBHC auxiliary aids and services are available, ADA compliant, and responsive to the needs of people with physical, cognitive, and/or developmental disabilities (e.g., sign language interpreters, teletype [TTY] lines) receiving services.

Documents or messages vital to the ability of a person receiving services to access CCBHC services (e.g., registration forms, sliding scale fee discount schedule, after-hours coverage, signage) are available online and in paper format, in languages commonly spoken within the community served, taking account of literacy levels and the need for alternative formats, and provided in a timely manner at intake and throughout the time a person is served by the CCBHC.

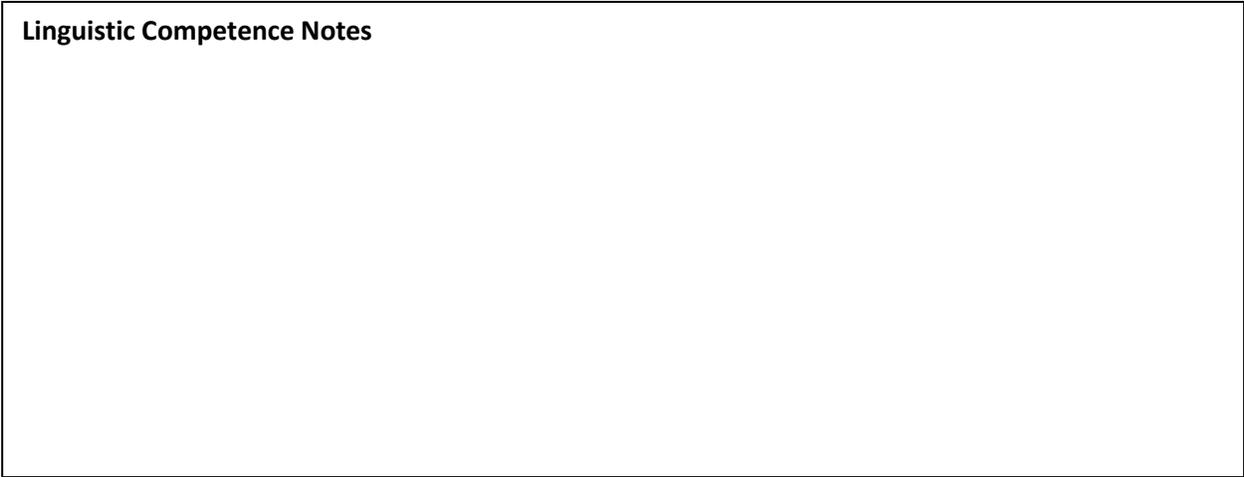

The community needs assessment has informed which languages require language assistance.

1.d.5 Meaningful Access and Privacy

Readiness Level				
Criteria 1.d.5	1	2	3	4
# of Clinics				

CCBHC policies have explicit provisions for ensuring that all employees, affiliated providers, and interpreters understand and adhere to confidentiality and privacy requirements applicable to the service provider, including but not limited to the requirements of the Health Insurance Portability and Accountability Act (HIPAA), 42 CFR Part 2 (Confidentiality of Alcohol and Drug Abuse Patient Records), patient privacy requirements specific to care for minors, and other state and federal laws.

Linguistic Competence Notes

A large, empty rectangular box with a thin black border, intended for handwritten or typed notes. The text 'Linguistic Competence Notes' is printed in the top-left corner of the box.

Program Requirement 2: Availability and Accessibility of Services

Criteria 2.A: General Requirements of Access and Availability

2.a.1 - 2.a.8 Access and Availability

Readiness Level				
Criteria 2.a.1-8	1	2	3	4
# of Clinics				

The CCBHC provides a safe, functional, clean, sanitary, and welcoming environment for people receiving services and staff.

The CCBHC provides services during times that facilitate accessibility and meet the needs of the population served, including some evening and weekend hours as informed by the community needs assessment.

The CCBHC provides services at locations that are accessible to and meet the needs of the population to be served, such as community settings as informed by the community needs assessment.

The CCBHC provides transportation or transportation vouchers for people receiving services to the extent possible with relevant funding or programs in order to facilitate access to services in alignment with the person-centered and family-centered treatment plan.

The CCBHC utilizes telehealth/telemedicine, video conferencing, digital therapeutics, remote patient monitoring, asynchronous interventions, and/or other technologies to the extent possible in alignment with the preferences of the person receiving services to support access to all required services.

The CCBHC conducts outreach, engagement, and retention activities to support inclusion and access for underserved individuals and populations as informed by the community needs assessment.

CCBHC services conform to state or county/municipal court standards for the provision of voluntary and court-ordered services.

The CCBHC has a continuity of operations/disaster plans in place that:

- Ensures the CCBHC is able to effectively notify staff, people receiving services, and healthcare and community partners when a disaster/emergency occurs or services are disrupted
- Identifies alternative locations and methods to sustain service delivery and access to behavioral health medications during emergencies and disasters
- Addresses health IT systems security/ransomware protection and backup and access to these IT systems, including health records, in case of disaster

General Requirements of Access and Availability Notes

Criteria 2.B: General Requirements for Timely Access to Services and Initial and Comprehensive Evaluation

2.b.1 Timing of Screening, Evaluation and Provision of Services to People Receiving Services New CCBHC

Readiness Level				
Criteria 2.b.1	1	2	3	4
# of Clinics				

All new people requesting or referred for services receive, at the time of first contact, a preliminary triage (whether in-person, by telephone, or other remote communication) to determine acuity of needs.

- If the triage identifies an emergency/crisis need, appropriate action is taken immediately (see 4.c.1 for crisis response timelines and detail about required services), including plans to reduce or remove risk of harm and to facilitate any necessary subsequent outpatient follow-up.
- If triage identifies an urgent need, clinical services and initial evaluation are to be provided within one (1) business day of the time the request is made.
- If triage identifies routine needs, services are provided, including the initial evaluation completed within 10 business days.

For those presenting with emergency or urgent needs, if the initial evaluation is conducted telephonically, once the emergency is resolved, the person receiving services is seen in-person at the next subsequent encounter and the initial evaluation reviewed.

The preliminary triage and risk assessment is followed by: (1) an initial evaluation and (2) a comprehensive evaluation, with the components of each specified in program requirement 4.

All new people receiving services receive a comprehensive evaluation to be completed within 60 calendar days of the first request for services. If the state has established independent screening and assessment processes for certain child and youth populations or other populations, the CCBHC should establish partnerships to incorporate findings and avoid duplication of effort. This requirement does not preclude the initiation or completion of the comprehensive evaluation, or the provision of treatment during the 60-day period.

2.b.2 Updating Comprehensive Person-Centered and Family-Centered Diagnostic and Treatment Planning Evaluation

Readiness Level				
Criteria 2.b.2	1	2	3	4
# of Clinics				

CCBHC treatment teams update the person-centered and family-centered diagnostic and treatment plan, in agreement with and endorsed by the person receiving services, when changes occur with the status of the person receiving services, based on responses to treatment, or when there are changes in treatment goals.

Program Requirement 3: Care Coordination

Criteria 3.A: General Requirements of Care Coordination

Readiness Level				
Criteria 3.A	1	2	3	4
# of Clinics				

Care coordination is based on a person-centered and family-centered treatment plan aligned with the requirements of Section 2402(a) of the Affordable Care Act and aligned with state regulations and consistent with best practices.

The CCBHC coordinates care across the spectrum of health services, including access to high-quality physical health (both acute and chronic) and behavioral health care, as well as social services, housing, educational systems, and employment opportunities as necessary to facilitate wellness and recovery of the whole person.

The CCBHC coordinates with other systems to meet the needs of the people they serve, including criminal and juvenile justice and child welfare.

The CCBHC maintains the necessary documentation to satisfy the requirements of HIPAA, 42 CFR Part 2, requirements specific to minors, and other privacy and confidentiality requirements of state or federal law addressing care coordination and in interactions with the DCOs.

The CCBHC obtains necessary consents for sharing information with community partners where information is not able to be shared under HIPAA and other federal and state laws and regulations.

- If the CCBHC is unable, after reasonable attempts, to obtain consent for any care coordination activity specified in program requirement 3, such attempts are documented and revisited periodically.

Consistent with requirements of privacy, confidentiality, and the preferences and needs of people receiving services, the CCBHC assists people receiving services and the families of children and youth referred to external providers or resources in obtaining an appointment and tracking participation in services to ensure coordination and receipt of supports.

The CCBHC coordinates care in keeping with the preferences of the person receiving services and their care needs.

The CCBHC develops a crisis plan with each person receiving services. Crisis plans may support the development of a Psychiatric Advanced Directive, if desired by the person receiving services. Psychiatric Advance Directives are entered in the electronic health record of the person receiving services so that the information is available to providers in emergency care settings.

The CCBHC has procedures to coordinate care in collaboration with the family/caregiver of the person receiving services. The CCBHC develops a crisis plan with each person receiving services to identify the preferences of the person in the event of psychiatric or substance use crisis.

- At minimum, people receiving services should be counseled about the use of the National Suicide & Crisis Lifeline, local hotlines, warmlines, mobile crisis, and stabilization services should a crisis arise when providers are not in their office.

The CCBHC has procedures to coordinate care for medication reconciliation with other providers.

CCBHC agreements for care coordination do not limit the freedom of a person receiving services to choose their provider within the CCBHC, its DCOs, or any other provider.

The CCBHC assists people receiving services and families to access benefits, including Medicaid, and enroll in programs or supports that may be beneficial to them.

General Requirements of Care Coordination Notes

Empty box for notes.

Criteria 3.B: Care Coordination and Other Health Information Systems

Readiness Level				
Criteria 3.B	1	2	3	4
# of Clinics				

The CCBHC has a health information technology system in place that includes electronic health records.

The CCBHC uses its secure health IT system and related technology tools to conduct activities such as population health management, quality improvement, quality measurement and reporting, disparity reduction, outreach, and research.

The CCBHC (*CCBHCs are not required to have all these capabilities in place when certified or when submitting their attestation*) uses technology that has been certified to current criteria under the ONC Health IT Certification Program for the following required core set of certified health IT capabilities that align with key clinical practice and care delivery requirements for CCBHCs:

- Capture health information, including demographic information such as race, ethnicity, preferred language, sexual and gender identity, and disability status (as feasible)
- At a minimum, support care coordination by sending and receiving summary of care records
- Provide people receiving services with timely electronic access to view, download, or transmit their health information or to access their health information via an API using a personal health app of their choice
- Provide evidence-based clinical decision support
- Conduct electronic prescribing

The CCBHC works with DCOs to ensure all steps are taken, including obtaining consent from people receiving services, to comply with privacy and confidentiality requirements. These include, but are not limited to, those of HIPAA (Pub. L. No. 104-191, 110 Stat. 1936 (1996)), 42 CFR Part 2, and other federal and state laws, including patient privacy requirements specific to the care of minors.

Within two years from CCBHC certification or submission of attestation the CCBHC produces a plan to focus on ways to improve care coordination between the CCBHC and all DCOs using a health IT system. This plan includes:

- Information on how the CCBHC can support electronic health information exchange to improve care transition to and from the CCBHC using the health IT system they have in place or are implementing for transitions of care
- Integrating clinically relevant treatment records (evaluation planning, treatment, and care coordination) generated by the DCO for people receiving CCBHC services and incorporating them into the CCBHC health record
- All clinically relevant treatment records maintained by the CCBHC are available to DCOs within the confines of federal and/or state laws governing sharing of health records

Care Coordination and Other Health Information Systems Notes

Empty rectangular box for notes.

Criteria 3.C: Care Coordination Agreements

Readiness Level				
Criteria 3.C	1	2	3	4
# of Clinics				

The CCBHC has a partnership¹ establishing care coordination with Federally Qualified Health Centers and, where relevant, Rural Health Clinics, unless health care services are provided by the CCBHC.

For people receiving services who are served by other primary care providers, including but not limited to FQHC Look-Alikes and Community Health Centers, the CCBHC has established protocols to ensure adequate care coordination.

The CCBHC has partnerships¹ that establish care coordination expectations with programs that can provide inpatient psychiatric treatment, OTP services, medical withdrawal management facilities and ambulatory medical withdrawal management providers for substance use disorders, and residential substance use disorder treatment programs (if any exist within the CCBHC service area). These include tribally operated mental health and substance use services including crisis services that are in the service area. The CCBHC tracks when people receiving services are admitted to and discharged from these facilities (unless there is a formal transfer of care to a non-CCBC entity).

The CCBHC has established protocols and procedures for transitioning individuals from EDs, inpatient psychiatric programs, medically monitored withdrawal management services, and residential or inpatient facilities that serve children and youth such as Psychiatric Residential Treatment Facilities and other residential treatment facilities, to a safe community setting. This includes transfer of health records of services received (e.g., prescriptions), active follow-up after discharge, and, as appropriate, a plan for suicide prevention and safety, overdose prevention, and provision for peer services.

The CCBHC has partnerships² (with a variety of community or regional services, supports, and providers. CCBHCs are required to develop partnerships with the following organizations operating within the service area:

- Schools
- Child welfare agencies
- Juvenile and criminal justice agencies and facilities, including drug, mental health, veterans and other specialty courts

¹ These partnerships should be supported by a formal, signed agreement detailing the roles of each party. If the partnering entity is unable to enter into a formal agreement, the CCBHC may work with the partner to develop unsigned joint protocols that describe procedures for working together and roles in care coordination. At a minimum, the CCBHC has developed written protocols for supporting coordinated care undertaken by the CCBHC and efforts to deepen the partnership over time so that jointly developed protocols or formal agreements can be developed. All partnership activities should be documented to support partnerships independent of any staff turnover.

² These partnerships should be supported by a formal, signed agreement detailing the roles of each party or unsigned joint protocols that describe procedures for working together and roles in care coordination. At a minimum, the CCBHC will develop written protocols for supporting coordinated care undertaken by the CCBHC and efforts to deepen the partnership over time so that jointly developed protocols or formal agreements can be developed. All partnership activities should be documented to support partnerships independent of any staff turnover.

- Indian Health Service youth regional treatment centers
- State licensed and nationally accredited child placing agencies for therapeutic foster care service
- The 988 Suicide & Crisis Lifeline call center serving the area in which the CCBHC is located
- Additional partners as required by certifying states
- CCBHCs may develop partnerships based on the population served, the needs and preferences of people receiving services, and/or needs identified in the community needs assessment (see 3.c.3 for examples)

The CCBHC has partnerships¹ in place with the nearest Department of Veterans Affairs' medical center, independent clinic, drop-in center, or other facility of the Department.

The CCBHC has care coordination partnerships¹ establishing expectations with inpatient acute-care hospitals in the area served by the CCBHC and their associated services/facilities including emergency departments, hospital outpatient clinics, urgent care centers, and residential crisis settings.

Care coordination partnerships with these entities include:

- Procedures and services, such as peer recovery specialist/coaches, to help individuals successfully transition from ED or hospital to CCBHC and community care to ensure continuity of services and to minimize the time between discharge and follow up
- Tracking when people receiving CCBHC services are admitted to facilities providing the services listed above, as well as when they are discharged
- The transfer of health records of services received (e.g., prescriptions) and active follow-up after discharge
- For all people receiving CCBHC services being discharged from such facilities who are at risk for suicide or overdose, a requirement to coordinate consent and follow-up services with the person receiving services within 24 hours of discharge and that continues until the individual is linked to services or assessed to be no longer at risk
- The CCBHC requests that notification be provided through the Admission-Discharge-Transfer (ADT) system of relevant inpatient and outpatient facilities, for people receiving CCBHC services

The CCBHC makes and documents reasonable attempts to contact all people receiving CCBHC services who are discharged from these settings within 24 hours of discharge.

Care Coordination Agreements Notes

Empty box for notes.

Program Requirement 4: Scope of Services

Criteria 4.A: General Service Provisions

Readiness Level				
Criteria 4.A	1	2	3	4
# of Clinics				

Whether delivered directly or through a DCO agreement, the CCBHC is responsible for ensuring access to all care specified in the Protecting Access to Medicare Act. This includes the following required services: crisis services; screening, assessment, and diagnosis; person-centered and family-centered treatment planning; outpatient behavioral health services; outpatient primary care screening and monitoring; targeted case management; psychiatric rehabilitation; peer and family supports; and intensive community-based outpatient behavioral health care for members of the U.S. Armed Forces and veterans.

The CCBHC organization directly delivers the majority (51% or more) of encounters across the required services (excluding Crisis Services) rather than through DCOs.

All CCBHC services, if not available directly through the CCBHC, are provided through a DCO.

The CCBHC or DCO make outside referrals if a needed specialty service is unavailable through the CCBHC or DCO entities.

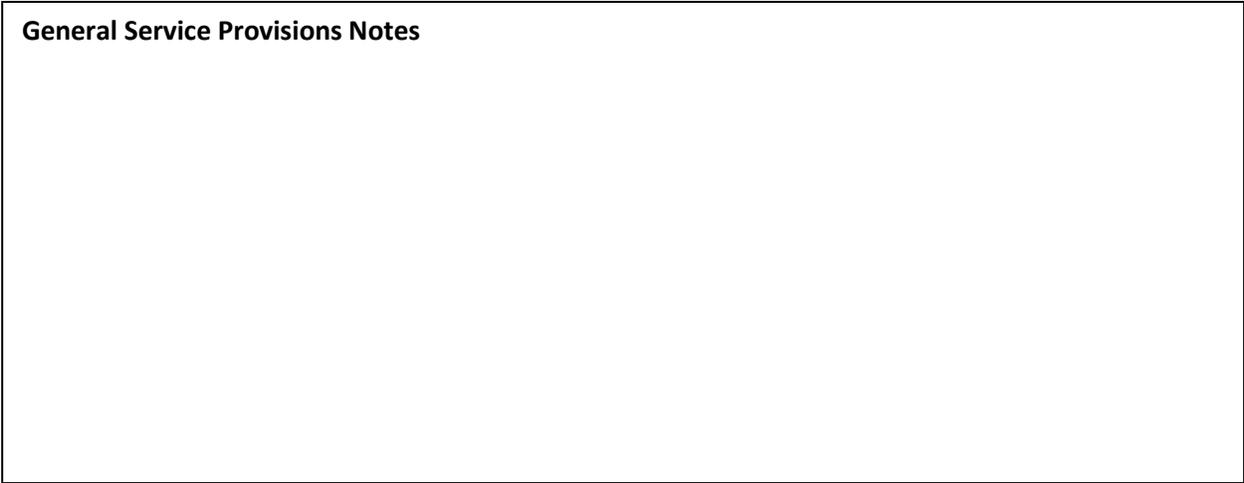

People receiving CCBHC services have freedom to choose providers within the CCBHC and its DCOs.

People receiving CCBHC services will be informed of and have access to CCBHC grievance procedures, including for CCBHC services provided by a DCO.

With regard to CCBHC or DCO services, the grievance process satisfies the minimum requirements of Medicaid and other grievance requirements such as those that may be mandated by relevant accrediting entities.

CCBHC services provided by DCOs meet the same quality standards as those required of the CCBHC.

General Service Provisions Notes

A large, empty rectangular box with a thin black border, intended for handwritten or typed notes. The text "General Service Provisions Notes" is printed in bold at the top left corner of the box.

Criteria 4.C: Crisis Behavioral Health Services

Readiness Level				
Criteria 4.C	1	2	3	4
# of Clinics				

The CCBHC provides crisis services directly or through a DCO agreement with existing state-sanctioned, certified, or licensed system or network for the provision of crisis behavioral health services as identified in these criteria.

- The CCBHC has received approval from HHS to have a DCO relationship with a state-sanctioned crisis system that operates under less stringent standards than those identified in these criteria.
- The certifying state has received approval from HHS to certify CCBHCs in its state that has or seeks to have a DCO relationship with a state-sanctioned crisis system with less stringent standards than those included in these criteria.

The CCBHC provides or coordinates with telephonic, text, and chat crisis intervention call centers that meet 988 Suicide & Crisis Lifeline standards for risk assessment and engagement of individuals at imminent risk of suicide.

Protocols have been established to track referrals made from the call center to the CCBHC or its DCO crisis care provider to ensure the timely delivery of mobile crisis team response, crisis stabilization, and post crisis follow-up care.

The CCBHC provides community-based behavioral health crisis intervention services using mobile crisis teams twenty-four hours per day, seven days per week to adults, children, youth, and families anywhere within the service area including at home, work, or anywhere else where the crisis is experienced.

Mobile crisis teams arrive in-person within one hour (2 hours in rural and frontier settings) from the time that they are dispatched, with response time not to exceed 3 hours. Telehealth/telemedicine may be used to connect individuals in crisis to qualified mental health providers during the interim travel time. Technologies also may be used to provide crisis care to individuals when remote travel distances make the 2-hour response time unachievable

- The ability to provide an in-person response is available when it is necessary to assure safety.

The CCBHC provides crisis receiving/stabilization services that includes at minimum, urgent care/walk-in mental health and substance use disorder services for voluntary individuals.

Urgent care/walk-in services identify the individual’s immediate needs, de-escalate the crisis, and connect them to a safe and least-restrictive setting for ongoing care.

Walk-in hours are informed by the community needs assessment and include evening hours that are publicly posted.

Services are available to individuals of any level of acuity, whether individuals present on their own, with a concerned individual, such as a family member, or with a human service worker and/or law enforcement in accordance with state and local laws.

Crisis services include suicide prevention and intervention and services capable of addressing crises related to substance use including the risk of drug and alcohol related overdose and support following a non-fatal overdose after the individual is medically stable.

Overdose prevention activities include the availability of naloxone for overdose reversal to individuals who are at risk of opioid overdose, and as appropriate, to their family members.

The CCBHC has an established protocol specifying the role of law enforcement during the provision of crisis services.

As a part of the requirement to provide training related to trauma-informed care, the CCBHC specifically focuses on the application of trauma-informed approaches during crises.

Crisis Behavioral Health Services Notes

Criteria 4.D: Behavioral Health Screening, Assessment, and Diagnosis

Readiness Level				
Criteria 4.D	1	2	3	4
# of Clinics				

The CCBHC directly, or through a DCO, provides screening, assessment, and diagnosis, including risk assessment for behavioral health conditions. In the event specialized services outside the expertise of the CCBHC are required for purposes of screening, assessment, or diagnosis, the CCBHC refers the person to an appropriate provider.

Screening, assessment, and diagnosis are conducted in a timeframe responsive to the needs and preferences of the person receiving services and are of sufficient scope to assess the need for all services required to be provided by the CCBHC.

The CCBHC’s initial evaluation of people receiving CCBHC services includes the following:

- Preliminary diagnoses
- Source of referral
- Reason for seeking care, as stated by the person receiving CCBHC services or other individuals who are significantly involved
- Identification of the immediate clinical care needs related to the diagnoses for mental and substance use disorders of the person receiving services
- A list of current prescriptions and over-the-counter medications, herbal remedies and dietary supplements and the indication for any medication
- A summary of previous mental health and substance use disorder treatments with a focus on which treatments helped and were not helpful
- The use of any alcohol and/or other drugs the person receiving services may be taking
- An assessment of whether the person receiving services is a risk to self or to others, including suicide risk factors
- An assessment of whether the person receiving services has other concerns for their safety, such as intimate partner violence
- An assessment of need for medical care (with referral and follow-up as required)
- A determination of whether the person presently is or ever has been a member of the U.S. Armed Services
- for children and youth, whether they have system involvement (such as child welfare and juvenile justice)

All people receiving CCBHC services receive a comprehensive evaluation.

The comprehensive evaluation should gather the amount of information that is commensurate with the complexity of their specific needs and prioritize preferences of people receiving services with respect to the depth of evaluation and their treatment goals.

The comprehensive evaluation include:

- Reasons for seeking services at the CCBHC, including information regarding onset of symptoms, severity of symptoms, and circumstances leading to the presentation to the CCBHC of the person receiving services
- An overview of relevant social supports; social determinants of health and health-related social needs such as housing, vocational, and educational status; family/caregiver and social support; legal issues; and insurance status
- A description of cultural and environmental factors that may affect the treatment plan of the person receiving services, including the need for linguistic services or supports for people with LEP
- Pregnancy and/or parenting status
- Behavioral health history, including trauma history and previous therapeutic interventions and hospitalizations with a focus on what was helpful and what was not helpful in past treatments
- Relevant medical history and major health conditions that impact current psychological status
- A medication list including prescriptions, over-the counter medications, herbal remedies, dietary supplements, and other treatments or medications of the person receiving services. Include those identified in a Prescription Drug Monitoring Program (PDMP) that could affect their clinical presentation and/or pharmacotherapy, as well as information on allergies including medication allergies
- An exam that includes current mental status, mental health (including depression screening, and other tools that may be used in ongoing measurement-based care) and substance use disorders (including tobacco, alcohol, and other drugs)
- Basic cognitive screening for cognitive impairment
- Assessment of imminent risk, including suicide risk, withdrawal and overdose risk, danger to self or others, urgent or critical medical conditions, and other immediate risks including threats from another person
- The strengths, goals, preferences, and other factors to be considered in treatment and recovery planning of the person receiving services
- Assessment of the need for other services required by the statute (i.e., peer and family/caregiver support services, targeted case management, psychiatric rehabilitation services)
- Assessment of any relevant social service needs of the person receiving services, with necessary referrals made to social services. For children and youth receiving services, assessment of systems involvement such as child welfare and juvenile justice and referral to child welfare agencies as appropriate
- An assessment of need for a physical exam or further evaluation by appropriate health care professionals, including the primary care provider (with appropriate referral and follow-up) of the person receiving services
- The preferences of the person receiving services regarding the use technologies such as telehealth/telemedicine, video conferencing, digital therapeutics, remote patient monitoring, and asynchronous interventions

Screening and assessment conducted by the CCBHC related to behavioral health include those for which the CCBHC is accountable pursuant to program requirement 5 and Appendix B of the criteria.

Other screening and monitoring required (if any) by the certifying state.

The CCBHC uses standardized and validated and developmentally appropriate screening and assessment tools appropriate for the person and, where warranted, brief motivational interviewing techniques to facilitate engagement.

The CCBHC uses culturally and linguistically appropriate screening tools and approaches that accommodate all literacy levels and disabilities (e.g., hearing disability, cognitive limitations), when appropriate.

If screening identifies unsafe substance use, including problematic alcohol or other substance use, the CCBHC conducts a brief intervention and the person receiving services is provided a full assessment and treatment, if appropriate within the level of care of the CCBHC, or referred to a more appropriate level of care. If the screening identifies more immediate threats to the safety of the person receiving services, the CCBHC takes appropriate action as described in 2.b.1.

Behavioral Health Screening, Assessment, and Diagnosis Notes

Criteria 4.E: Person-Centered and Family-Centered Treatment Planning³

Readiness Level				
Criteria 4.E	1	2	3	4
# of Clinics				

The CCBHC directly, or through a DCO, provides person-centered and family-centered treatment planning including but not limited to, risk assessment and crisis planning.

The CCBHC develops an individualized treatment plan based on information obtained through comprehensive evaluation and the person receiving services’ goals and preferences.

The plan addresses the person’s prevention, medical, and behavioral health needs and is developed in collaboration with and be endorsed by the person receiving services, their family (if the person receiving services so wishes), and family/caregivers/legal guardians of youth and children.

The treatment plan development is coordinated with staff or programs necessary to carry out the plan and supports care in the least restrictive setting possible.

All necessary releases of information are obtained and included in the health record as a part of the development of the initial treatment plan.

The CCBHC uses the initial and comprehensive evaluations and ongoing screening assessments of the person receiving services to inform the treatment plan and services provided.

Treatment planning includes needs, strengths, abilities, preferences, and goals, expressed in a manner capturing the words or ideas of the person receiving services or their family if appropriate.

The treatment plan is comprehensive, addressing all services required, including recovery supports, with provision for monitoring of progress towards goals and built upon a shared decision-making approach.

The CCBHC seeks consultation where appropriate during treatment planning (e.g., eating disorders, traumatic brain injury, intellectual and developmental disabilities (I/DD), interpersonal violence and human trafficking).

The person’s health record documents any advance directives related to treatment and crisis planning. If the person receiving services does not wish to share their preferences, that decision is documented. Please see 3.a.4., requiring the development of a crisis plan with each person receiving services.

Other aspects of person-centered and family-centered treatment planning required (if any) by the certifying states.

³ For more information related to person-centered treatment planning see [eCFR :: 42 CFR Part 485 Subpart J -- Conditions of Participation: Community Mental Health Centers \(CMHCs\)](#) and [eCFR :: 42 CFR Part 441 Subpart M -- State Plan Home and Community-Based Services for the Elderly and Individuals with Disabilities](#).

Person-Centered and Family-Centered Treatment Planning Notes

Criteria 4.F: Outpatient Mental Health and Substance Use Services

Readiness Level				
Criteria 4.F	1	2	3	4
# of Clinics				

The CCBHC directly, or through a DCO, provides outpatient behavioral health care including psychopharmacological treatment that are evidence-based services using best practices for treating mental health and substance use disorders across the lifespan with tailored approaches for adults, children, and families.

SUD treatment and services are provided as described in the American Society for Addiction Medicine Levels 1 and 2.1 and include treatment of tobacco use disorders.

In the event specialized or more intensive services outside the expertise of the CCBHC or DCO are required for purposes of outpatient mental and substance use disorder treatment the CCBHC makes them available through referral or other formal arrangement with other providers or, where necessary and appropriate, through use of telehealth/telemedicine, in alignment with state and federal laws and regulations.

The CCBHC provides or makes available through a formal arrangement traditional practices/treatment as appropriate for the people receiving services served in the CCBHC area.

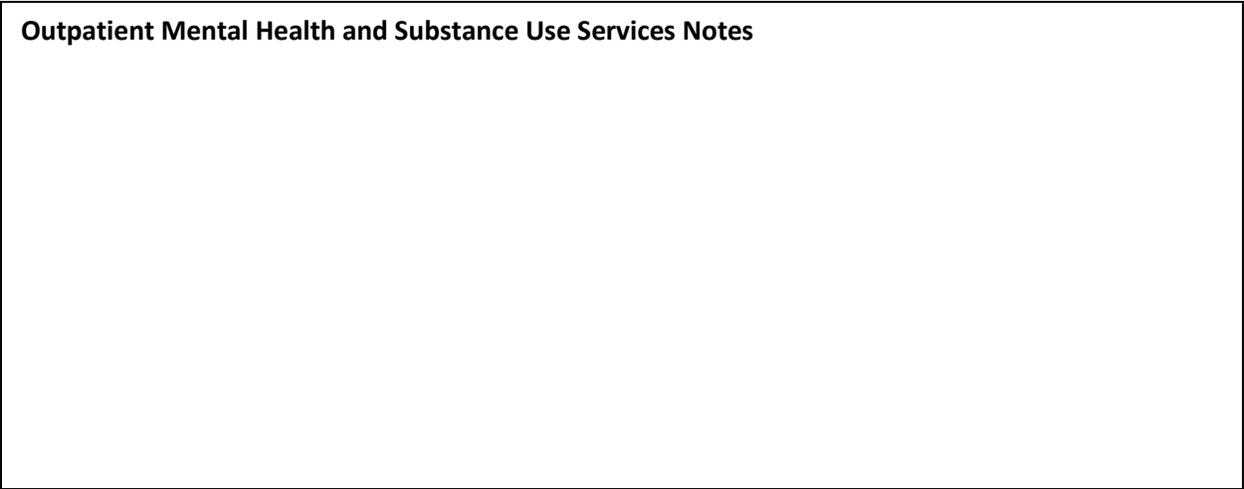

The CCBHC delivers the evidence-based practices as required by certifying states.

Treatments are provided that are appropriate for the phase of life and development of the person receiving services and delivered by staff with specific training in treating the segment of the population being served.

- When treating children and adolescents, CCBHCs provide evidenced-based services that are developmentally appropriate, youth-guided, and family/caregiver-driven.
- When treating older adults, the desires and functioning of the individual person receiving services are considered, and appropriate evidence-based treatments are provided.
- When treating individuals with developmental or other cognitive disabilities, level of functioning is considered, and appropriate evidence-based treatments are provided.

Supports for children and adolescents comprehensively address family/caregiver, school, medical, mental health, substance use, psychosocial, and environmental issues.

Outpatient Mental Health and Substance Use Services Notes

A large, empty rectangular box with a thin black border, intended for handwritten or typed notes. The text "Outpatient Mental Health and Substance Use Services Notes" is printed in bold at the top left corner of the box.

Criteria 4.G: Outpatient Clinic Primary Care Screening and Monitoring

Readiness Level				
Criteria 4.G	1	2	3	4
# of Clinics				

The CCBHC monitors key health indicators and health risks, and coordinates care in a timely fashion. The Medical Director has established protocols that conform to screening recommendations with scores of A and B of the United States Preventive Services Task Force Recommendations for the following conditions:

- HIV and viral hepatitis
- Primary care screening pursuant to CCBHC Program Requirement 5 Quality and Other Reporting and Appendix B
- Other clinically indicated primary care key health indicators of children, adults, and older adults receiving services, as determined by the CCBHC Medical Director and based on environmental factors, social determinants of health, and common physical health conditions experienced by the CCBHC person receiving services population.

The Medical Director developed organizational protocols to ensure screening for common physical health conditions experienced by CCBHC populations across the lifespan. Protocols include:

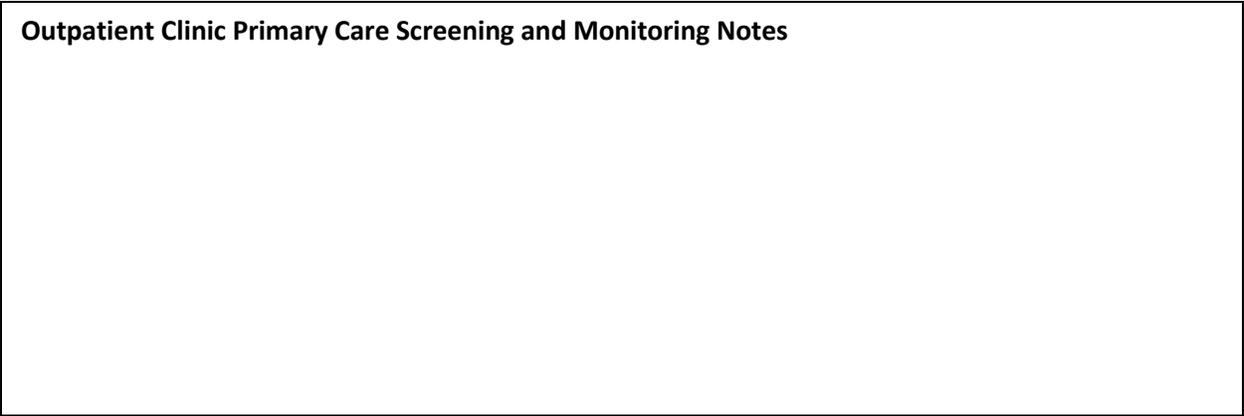

- Identifying people receiving services with chronic diseases
- Ensuring that people receiving services are asked about physical health symptoms
- Establishing systems for collection and analysis of laboratory samples, fulfilling the requirements of 4.g.

The CCBHC should have the ability to collect biologic samples directly, through DCO, or through a formal agreement. Laboratory analyses can be done directly or through another arrangement with an organization separate from the CCBHC.

The CCBHC provides ongoing primary care monitoring of health conditions as identified in 4.g.1 and 4.g.2., and as clinically indicated for the individual. Monitoring includes the following:

- Ensuring individuals have access to primary care services
- Ensuring ongoing periodic laboratory testing and physical measurement of health status indicators and changes in the status of chronic health conditions
- Coordinating care with primary care and specialty health providers including tracking attendance at needed physical health care appointments; and promoting a healthy lifestyle

Outpatient Clinic Primary Care Screening and Monitoring Notes

Criteria 4.J: Peer Supports, Peer Counseling, and Family/Caregiver Supports

Readiness Level				
Criteria 4.J	1	2	3	4
# of Clinics				

The CCBHC or through a DCO provides peer supports, including peer specialist and recovery coaches, peer counseling, and family/caregiver supports.

The CCBHC or through a DCO provides the scope of peer and family services specified (if any) by certifying states.

Peer Supports, Peer Counseling, and Family/Caregiver Supports Notes

Criteria 4.K: Intensive, Community-Based Mental Health Care for Members of the Armed Forces and Veterans

Readiness Level				
Criteria 4.K	1	2	3	4
# of Clinics				

The CCBHC provides directly, or through a DCO, intensive, community-based behavioral health care for certain members of the U.S. Armed Forces and veterans, particularly those Armed Forces members located 50 miles or more (or one hour’s drive time) from a Military Treatment Facility and veterans living 40 miles or more (driving distance) from a VA medical facility, or as otherwise required by federal law. The CCBHC has demonstrated efforts to facilitate the provision of intensive community-based behavioral health services to veterans and active-duty military personnel.

With all individuals inquiring about services, the CCBHC documents whether they have ever served in the U.S. military. For those affirming current or former service in the U.S. military, CCBHCs either directs them to care or provides care through the CCBHC as required by criterion 4.k.2.

The CCBHC offers assistance with enrollment in the VHA for the delivery of health and behavioral health services to persons affirming former military service.

The CCBHC ensures coordination for the care of substance use disorders and other mental health conditions for veterans and active-duty military personnel who experience both, to the extent those services are appropriately provided by the CCBHC in accordance with criteria 4.k.1 and 4.k.2.

The CCBHC provides for integration and coordination of care for behavioral health conditions and other components of health care for all veterans and active-duty military personnel who experience both, to the extent those services are appropriately provided by the CCBHC in accordance with criteria 4.k.1 and 4.k.2.

The CCBHC assigns a Principal Behavioral Health Provider to every veteran seen, unless the VHA has already assigned a Principal Behavioral Health Provider. When veterans are seeing more than one behavioral health provider and when they are involved in more than one program, the identity of the Principal Behavioral Health Provider is made clear to the veteran and identified in the health record. The Principal Behavioral Health Provider fulfills requirements in accordance with accordance with criteria 4.k.4.

The CCBHC provides behavioral health services for veterans that are recovery-oriented and adhere to the guiding principles of recovery (outlined in criteria 4.k.5), VHA recovery, and other VHA guidelines.

CCBHC staff who work with people receiving CCBHC services who are military or veterans are trained in cultural competence, and specifically military and veterans’ culture.

The CCBHC develops a behavioral health treatment plan for all veterans receiving behavioral health services compliant with provisions of Criteria 4.K.

**Intensive, Community-Based Mental Health Care for Members of the Armed Forces and Veterans
Notes**

Program Requirement 5: Quality and Other Reporting

Criteria 5.A: Data Collection, Reporting, and Tracking

Readiness Level				
Criteria 5.A	1	2	3	4
# of Clinics				

The CCBHC has the capacity to collect, report, and track encounter, outcome, and quality data, including, but not limited to, data capturing of:

- Characteristics of people receiving services
- Staffing
- Access to services
- Use of services
- Screening, prevention, and treatment
- Care coordination
- Other processes of care
- Costs
- Outcomes of people receiving services

The CCBHC collects and reports the Clinic-Collected quality measures identified as required in Appendix B for all people receiving CCBHC services. CCBHCs report quality measures nine (9) months after the end of the measurement year as that term is defined in the technical specifications.

CCBHCs participating in Section 223 Demonstration report the data to their states.

CCBHC-Es that are required to report quality measure data, report it directly to SAMHSA.

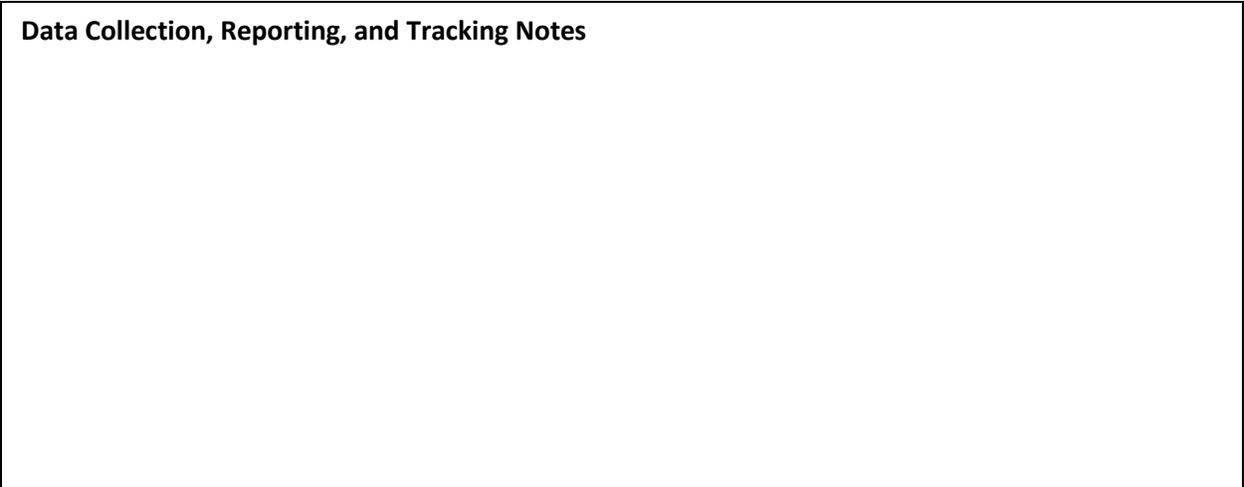

The CCBHC collects and reports any of the optional Clinic-Collected measures identified in Appendix B as required (if any) by certifying states.

CCBHCs participating in the Section 223 Demonstration have arrangements with DCOs for access to quality measures data for CCBHC services delivered by DCOs as legally permissible.

CCBHCs participating in the Section 223 Demonstration program participate in discussions with the national evaluation team and other evaluation-related data collection activities if requested.

CCBHCs participating in the Section 223 Demonstration program annually submit a cost report with supporting data within six months after the end of each Section 223 Demonstration year to the state.

Data Collection, Reporting, and Tracking Notes

A large, empty rectangular box with a thin black border, intended for handwritten or typed notes. The text "Data Collection, Reporting, and Tracking Notes" is printed in bold at the top left corner of the box.

Criteria 5.B: Continuous Quality Improvement (CQI) Plan

Readiness Level				
Criteria 5.B	1	2	3	4
# of Clinics				

The CCBHC develops, implements, and maintains an effective, CCBHC-wide continuous quality improvement (CQI) plan for the services provided.

The CCBHC establishes a critical review process to review CQI outcomes and implement changes to staffing, services, and availability that improves the quality and timeliness of services.

The CQI plan focuses on indicators related to improved behavioral and physical health outcomes and takes actions to demonstrate improvement in CCBHC performance.

The Medical Director is involved in the aspects of the CQI plan that apply to the quality of the medical components of care, including coordination and integration with primary care.

The CQI plan addresses how the CCBHC reviews known significant events including, at a minimum:

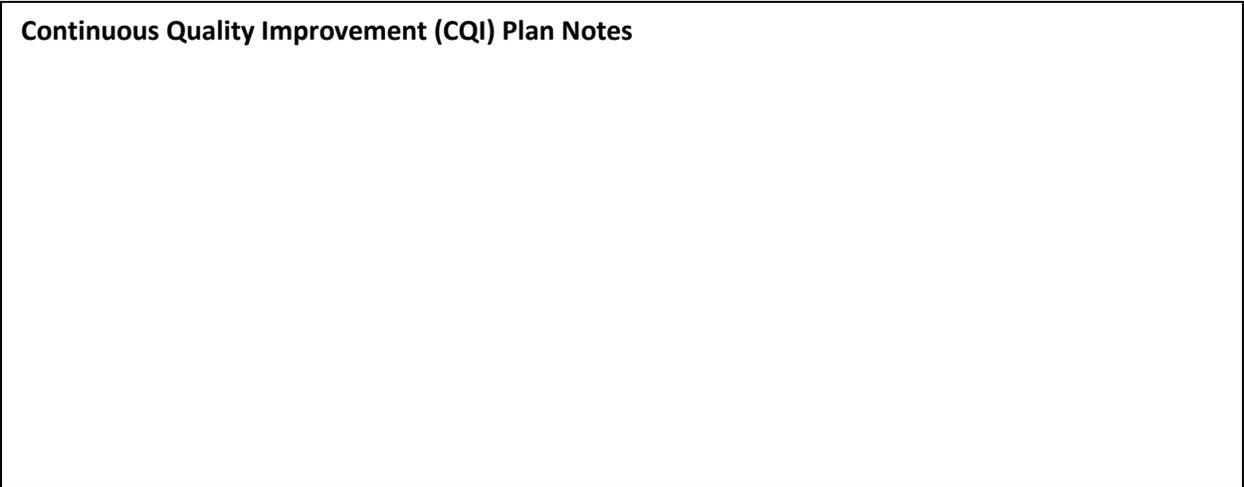

- Deaths by suicide or suicide attempts of people receiving services
- Fatal and non-fatal overdoses
- All-cause mortality among people receiving CCBHC services
- 30-day hospital readmissions for psychiatric or substance use reasons
- Such other events the state or applicable accreditation bodies may deem appropriate for examination and remediation as part of a CQI plan

The CQI plan is data-driven and the CCBHC considers the use of quantitative and qualitative data in their CQI activities.

CCBHCs participating in the Section 223 Demonstration address the data resulting from the CCBHC-collected and, as applicable for the, State-Collected, quality measures that may be required as part of the Demonstration.

The CQI plan includes an explicit focus on populations experiencing health disparities (including racial and ethnic groups and sexual and gender minorities) and addresses how the CCBHC uses disaggregated data from the quality measures and, as available, other data to track and improve outcomes for populations facing health disparities.

Continuous Quality Improvement (CQI) Plan Notes

Program Requirement 6: Organizational Authority, Governance, and Accreditation

Criteria 6.A: General Requirements of Organizational Authority and Finances

Readiness Level				
Criteria 6.A	1	2	3	4
# of Clinics				

The CCBHC maintains documentation establishing the CCBHC conforms to at least one of the following statutorily established criteria:

- Is a non-profit organization, exempt from tax under Section 501(c)(3) of the United States Internal Revenue Code
- Is part of a local government behavioral health authority
- Is operated under the authority of the Indian Health Service, an Indian tribe, or tribal organization pursuant to a contract, grant, cooperative agreement, or compact with the Indian Health Service pursuant to the Indian Self-Determination Act (25 U.S.C. 450 et seq.)
- Is an urban Indian organization pursuant to a grant or contract with the Indian Health Service under Title V of the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.)

To the extent CCBHCs are not operated under the authority of the Indian Health Service, an Indian tribe, or tribal or urban Indian organization, CCBHCs has reached out to such entities within their geographic service area and enter into arrangements with those entities to assist in the provision of services to tribal members and to inform the provision of services to tribal members. To the extent the CCBHC and such entities jointly provide services, the CCBHC and those collaborating entities, as a whole, satisfy the requirements of these criteria.

An independent financial audit is performed annually for the duration that the clinic is designated as a CCBHC in accordance with federal audit requirements, and, where indicated, a corrective action plan is submitted addressing all findings, questioned costs, reportable conditions, and material weakness cited in the Audit Report.

General Requirements of Organizational Authority and Finances Notes

Criteria 6.B: Governance

Readiness Level				
Criteria 6.B	1	2	3	4
# of Clinics				

The CCBHC has identified how to integrate meaningful participation in leadership and decision-making positions within their governance by individuals with lived experience of mental and/or substance use disorders and their families, including youth.

- Option 1. At least fifty-one percent of the CCBHC governing board is comprised of individuals with lived experience of mental and/or substance use disorders and families.

OR

- Option 2. Individuals with lived experience of mental and/or substance use disorders and family members of people receiving services have representation in governance that assures input into Identifying community needs and goals and objectives of the CCBHC; service development, quality improvement, and the activities of the CCBHC; fiscal and budgetary decisions; and governance (human resource planning, leadership recruitment and selection, etc.).
 - The governing board must establish protocols for incorporating input from individuals with lived experience and family members
 - Board meeting summaries are shared with those participating in the alternate arrangement and recommendations from the alternate arrangement are entered into the formal board record
 - A member or members of the arrangement must be invited to board meetings; and
 - Representatives of the alternate arrangement must have the opportunity to regularly address the board directly, share recommendations directly with the board, and have their comments and recommendations recorded in the board minutes
 - The CCBHC provides staff support for posting an annual summary of the recommendations from the alternate arrangement under option 2 on the CCBHC website
 - Opportunity to share recommendations directly with the board.
 - The CCBHC provides staff support for posting an annual summary of the recommendations from the alternate arrangement on the CCBHC website.

For Option 2, the certifying state or the federal grant funding agency determined that the approach to achieve meaningful participation is acceptable.

- If not acceptable, the CCBHC has made satisfactory progress in the process of implementing additional mechanisms as required by the certifying state or federal grant funding agency to fulfill this requirement. CCBHC makes available the results of its efforts in terms of outcomes and resulting changes.

Note: See criteria 6.b.3 for CCBHC that are comprised of a governmental or tribal organization, subsidiary, or part of a larger corporate organization that cannot meet these requirements for board membership. Members of the governing or advisory boards are representative of the communities in which the CCBHC's service area is located and are selected for their expertise in health services, community affairs, local government, finance and accounting, legal affairs, trade unions, faith communities, commercial and industrial concerns, or social service agencies within the communities served. No more than one half (50 percent) of the governing board members may derive more than 10 percent of their annual income from the health care industry.

Governance Notes

Criteria 6.C: Accreditation

Readiness Level				
Criteria 6.C	1	2	3	4
# of Clinics				

The CCBHC is enrolled as a Medicaid provider and licensed, certified, or accredited provider of both mental health and substance use disorder services including developmentally appropriate services to children, youth, and their families, unless there is a state or federal administrative, statutory, or regulatory framework that substantially prevents the CCBHC organization provider type from obtaining the necessary licensure, certification, or accreditation to provide these services.

The CCBHC adheres to any applicable state accreditation, certification, and/or licensing requirements.

The CCBHC participates in SAMHSA Behavioral Health Treatment Locator.

Accreditation Notes	
----------------------------	--
