#### Submitter Information

Name: parascos n pandelos

Address:

417 oregon tr.

hubert, 28539

Submitter's Representative: parascos pandelos

Organization: goodfridaysafety

Government Agency Type: Tribal

#### General Comment

I feel tracking outreach training is important for subject matter.

I have ? students from internal organization trained by Company Outreach Instructors who lack the simplest knowledge requirements such as General Duty Clause. I feel authorized trainers are short changing construction employees on important information due to pressure from the employer, cost and time. Most employers are using there (AI) as a ticket punching tool when required. By utilizing external evaluation to the students trained, this could give OSHA and tribal leaders a accurate account of subject matter being taught.
