Subject public comment on federal register

is this ag rency looking t kill every wolf around again, after taking endless amounts of tax dollars to reintroduce them. i dontkeep wh think this agency really knows with its left hand what its right hand is doing. i think a group of wildlife murderers run this agency, which is not apparent to most americans, because these ugly wildlife murderers keep of this the killing they do very very secret. i think more of the activities of this agency need to besubject to full public testimony. it is clear american tax dollars being wasted in huge amounts by this agenc.jeanpublic 15 elm st florham park nj07932

Proposed Information Collection; OMB Control Number 1018-0095;
Endangered and Threatened Wildlife, Experimental Populations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC)

described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on March 31, 2011. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by January 3, 2011.

ADDRESSES: Send your comments on the IC to Hope Grey, Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); or infocol@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Mary Klee, U.S. Fish and Wildlife Service, MS 420-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail), mary_klee@fws.gov (e-mail) or 703-358-2421 (telephone).

SUPPLEMENTARY INFORMATION:

I. Abstract

Section 10(j) of the Endangered Species Act of 1973 (ESA), as amended, (16 U.S.C. 1531 et seq.) authorizes the Secretary of the Interior to establish experimental populations of endangered or threatened species. Because individuals of experimental populations are categorically protected under the ESA, the information we collect is important for monitoring the success of reintroduction efforts and recovery efforts in general. This is a nonform collection. Information collection requirements for experimental populations of endangered and threatened species are in 50 CFR 17.84. We collect three categories of information:

(1) General take or removal. Relates to human-related mortality including unintentional taking incidental to otherwise lawful activities (e.g., highway mortalities); animal husbandry actions authorized to manage the population (e.g., translocation or providing aid to sick, injured, or orphaned individuals); take in defense of human life; take related to defense of property (if authorized); or take in the form of authorized harassment.

(2) Depredation-related take. Involves take for management purposes where livestock depredation is documented, and may include authorized harassment or authorized lethal take of experimental animals in the act of attacking livestock.

(3) Specimen collection, recovery, or reporting of dead individuals. This information documents incidental or authorized scientific collection. Most of the contacts with the public deal primarily with the reporting of sightings

of experimental population animals or the inadvertent discovery of an injured or dead individual.

The information that we collect includes:

Name, address, and phone number of reporting party.

Species involved.

Type of incident.

Location and time of the reported incident.

Description of the circumstances related to the incident.

This information helps us to assess the effectiveness of control activities and to develop better means to reduce problems with livestock for those species where depredation is a problem. Service recovery specialists use the information to determine the success of reintroductions in relation to established recovery plan goals for the threatened and endangered species involved.

III. Comments

We invite comments concerning this information collection on:

Whether or not the collection of information is necessary, including whether or not the information will have practical utility;

The accuracy of our estimate of the burden for this collection of information;

Ways to enhance the quality, utility, and clarity of the information to be collected; and

Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: October 28, 2010.

Hope Grey,

Information Collection Clearance Officer, Fish and Wildlife Service.
