- Completing its Call Report in paper form and arranging with a software vendor or another party to convert the data into the electronic format that can be processed by the CDR. The software vendor or other party then must electronically submit the bank's data file to the CDR.

For technical assistance with submissions to the CDR, please contact the CDR Help Desk by telephone at (888) CDR-3111, by fax at (703) 774-3946, or by e-mail at [CDR.Help@ffiec.gov](mailto:CDR.Help@ffiec.gov).

The appearance of your bank's hard-copy record of the submitted data file need not match exactly the appearance of the FFIEC's sample report forms, but should show at least the caption of each Call Report item and the reported amount.

## Part II. Loans to Small Businesses and Small Farms

Report the number and amount currently outstanding as of **the report date** of business loans with “original amounts” of \$1,000,000 or less and farm loans with “original amounts” of \$500,000 or less. The following guidelines should be used to determine the “original amount” of a loan: (1) For loans drawn down under lines of credit or loan commitments, the “original amount” of the loan is the size of the line of credit or loan commitment when the line of credit or loan commitment was **most recently** approved, extended, or renewed prior to the report date. However, if the amount currently outstanding as of the report date exceeds this size, the “original amount” is the amount currently outstanding on the report date. (2) For loan participations and syndications, the “original amount” of the loan participation or syndication is the entire amount of the credit originated by the lead lender. (3) For all other loans, the “original amount” is the total amount of the loan at origination or the amount currently outstanding as of the report date, whichever is larger.

## Schedule RC-R—Continued

Banks are not required to risk-weight each on-balance-sheet asset and the credit equivalent amount of each off-balance-sheet item that qualifies for a risk weight of less than 100 percent (50 percent for derivatives) at its lower risk weight. When completing items 34 through 54 of Schedule RC-R, each bank should decide for itself how detailed a risk-weight analysis it wishes to perform. In other words, a bank can choose from among its assets and off-balance-sheet items that have a risk weight of less than 100 percent which ones to risk-weight at an appropriate lower risk weight, or it can simply risk-weight some or all of these items at a 100 percent risk weight (50 percent for derivatives).
