Dear Ms. McPhee:

Thank you for providing the Southeastern Colorado Water Conservancy District an extension on the Federal Register notice for landholder RRA forms and district summary RRA forms comments, since there was problems with the mail delivery.

The items identified are:

1. FORM 7-21INFO 2014 Instructions – there was some discussion with our regional office regarding this item that not all trusts are reviewed. The remainder of the sentence may be ambiguous:
 - a. WHICH FORMS TO SUBMIT, page 3, "However, section 426.7 of the Acreage Limitation Rules and Regulations requires that ~~all~~ (replace with "certain") trusts be reviewed; therefore, if your trust has not been reviewed, the trustee(s) must submit the trust document(s) to the appropriate Reclamation office."
2. FORM 7-21TRUST (2014)
 - a. Item 10 and 15, a return removed words from that particular area of the form, so the end of the sentence is not shown.
 - b. Item 18 *NOTE: the paragraph is not entirely readable.
3. FORM 7-21VERIFY (2014) – Item 7 the cell or box on the bottom right side is not entirely readable.

If you have any questions contact me or Bob Hamilton at (719) 948-2400. Thank you and Happy Holidays!

Sincerely,

Margie Medina, Administrative Support Specialist
