General Comment

This comment about reporting time after inspection;

It depends on location and other logistic facility available in the inspection area. In my context I used to inspect in remote part of country and logistic facility is not available always. Therefore, I used to complete the checklist and prepare the formal report based on checklist for ACAs.

In difficult area within 1 month of field/onsite inspection report is submitted to respective ACAs if the operator is grower group and relatively remote. In majority of case within 15 days the report is submitted.
