RE: *Federal Register* notice of August 19, 2013, for the Bureau of Labor Statistics  
Telephone Point of Purchase Survey (OMB Number: 1220-0044)

Dear Ms. Kincaid:

The Bureau of Economic Analysis (BEA) strongly supports the updating and continued collection of information the Bureau of Labor Statistics (BLS) Telephone Point of Purchase Survey (TPOPS) program. This important survey is critical to the data quality of numerous components of BEA's GDP statistics.

The importance of the information gathered through the TPOPS cannot be overstated. Information from this survey is used as the sampling universe for selecting establishments at which prices of specific items are collected and monitored for use in the BLS Consumer Price Index (CPI) Program. BEA uses CPIs primarily to deflate numerous components of PCE, the change in private inventories, and state and local government purchases. Additionally, BEA supports the addition of a cell phone frame to address the coverage issues associated with landline surveys and to improve the coverage.

Please keep BEA informed about any modifications to this form. We are particularly interested in any modifications proposed during the form's approval process that would substantially affect our use of these data. For additional information, please contact Tiffany Burrell, Source Data Coordinator, on 202-606-9618 or by e-mail at [Tiffany.Burrell@bea.gov](mailto:Tiffany.Burrell@bea.gov). Should you need assistance in justifying this form to the Office of Management and Budget, please do not hesitate to contact BEA.

Sincerely,

Dennis J. Fixler  
Chief Statistician
