**Subject:** CDFI Fund Seeks Public Comment on NMTC Program Allocation Application

Per the request for comments on the NMTC Program:

Every state in the USA needs an allocation of NMTC.

Divide up the pot by a formula --so every State gets a share.

This will eliminate the need for this monster application and application review process.

Time for CDFI to stop trying to build a Federal empire and start doing what is right for all citizens of this country, whose tax dollars subsidize / fund this program.

Again --- stop the government waste in time and money on the application and review process and allocate funds to each State for local control.

Lets run a more efficient and productive government.
