Office of the Secretary
Consumer Product Safety Commission
Room 820
4330 East West Highway
Bethesda, MD 20814

To whom it may concern:

The American Motorcyclist Association is writing to you regarding the Consumer Product Safety Commission's proposed data collection, Docket No. CPSC-2010-0046.

Founded in 1924, the AMA is the premier advocate of the motorcycling community. We represent the interests of millions of American on- and off-highway motorcycleists and all-terrain-vehicle riders. Our mission is to promote the motorcycle lifestyle and protect the future of motorcycling.

The safety of motorcycleists is the highest priority of the AMA.

As a result, the AMA urges the CPSC to ensure that focus groups used for data collection are representative of all those affected by the decisions of the commission. In instances where off-highway-vehicles are being discussed by the commission, any panel or focus group should include representatives from the riding community, not just those studying the potential dangers of a product.

The AMA would like to offer itself as a resource to the commission as it moves forward on any study or initiative that may affect motorcycling.

Thank you for your consideration of our comments.

If you have questions please do not hesitate to contact me by phone, (202) 742-4301, or by email, wallard@ama-cycle.org.

Sincerely,

A handwritten signature in blue ink that reads 'Wayne Allard'.
