The NPRM, Directorate Identifier 2012-NM-007-AD, currently proposes to require repetitive draining of any fluid from the retraction actuator piston rod internal volume and sealing of the vent hole; repetitive ultrasonic inspections of the upper end of the piston rods, and corrective actions if necessary; a one-time ultrasonic inspection (longitudinal and circumferential) of the full-length of the piston rod, and corrective actions if necessary; and a terminating modification of the left-hand and right-hand main landing gear (MLG) retraction actuators.

As published, the NPRM (79 FR 7098, February 6, 2014) specifies an incorrect docket number throughout the preamble and regulatory text. We have been informed that a duplicate docket number was inadvertently assigned to us for the NPRM. The correct docket number is FAA-2014-0132.

Commenters who submitted comments to the original (incorrect) docket number should check Docket No. FAA-2014-0012 and Docket No. FAA-2014-0132 on <http://www.regulations.gov> to determine whether their comments have been received and filed in the appropriate docket. If not, or if it is not possible to

determine whether comments have been posted to the correct docket, the comments should be resubmitted using the correct docket number.

No other part of the preamble or regulatory information has been changed; therefore, only the changed portion of the NPRM (79 FR 7098, February 6, 2014) is being published in the **Federal Register**.

The last date for submitting comments to the NPRM (79 FR 7098, February 6, 2014) remains March 24, 2014.

SUPPLEMENTARY INFORMATION:

I. Background: The Wage and Hour Division (WHD) of the Department of Labor (DOL) administers the Migrant and Seasonal Agricultural Worker Protection Act (MSPA), 29 U.S.C. 1801 *et seq.* The MSPA protects migrant and seasonal agricultural workers by establishing employment standards related to wages, housing, transportation, disclosures, and recordkeeping. The MSPA also requires farm labor contractors and farm labor contractor employees to register with the U.S. Department of Labor and to obtain special authorization before housing, transporting, or driving covered workers. The MSPA requires that any person owning or controlling any facility or real property to be used for housing migrant agricultural workers shall not permit such housing to be occupied by any worker unless copy of a certificate of occupancy from the state, local or federal agency that conducted the housing safety and health inspection is posted at the site of the facility or real property. The certificate attests that the facility or real property meets applicable

safety and health standards. Form WH-520 is an information gathering form and the certificate of occupancy that the Wage and Hour Division issues when it is the federal agency conducting the safety and health inspection.

II. Review Focus: The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: The DOL seeks an approval for the extension of this information collection that requires any person owning or controlling any facility or real property to be occupied by migrant agricultural workers to obtain a certificate of occupancy.
