RE: *Federal Register* notice of May 29, 2014, for the Annual Retail Trade Survey (OMB Number: 0607-0013)

Dear Ms. Jessup:

The Bureau of Economic Analysis (BEA) strongly supports the continued collection of data by the U.S. Census Bureau on the Annual Retail Trade Survey (ARTS). The data collected on these forms are crucial to key components of BEA's economic statistics.

BEA strongly supports the collection of data on these forms and uses information from them in the national income and product accounts (NIPA), the annual and benchmark input-output (I-O) accounts, and the GDP by industry statistics. The ARTS is the only source of data for retail trade sales, purchases, inventories, sales taxes, and gross margins for output in the benchmark and is critical for the industry benchmark estimates. The attached table shows how data from these forms are used by BEA.

Additionally, BEA supports the quinquennial collection of the expense data for detailed operating expenses with the ARTS that were previously collected quinquennially on the Business Expenses Supplement (BES). A list of items (as previously obtained through the BES) and their use by BEA are also attached.

Please keep BEA informed about any modifications to this survey. We are particularly interested in any modifications proposed during the survey's approval process that would substantially affect our use of these data. For additional information, please contact Tiffany Burrell, Source Data Coordinator, at 202-606-9618 or by e-mail at [Tiffany.Burrell@bea.gov](mailto:Tiffany.Burrell@bea.gov). Should you need assistance in justifying this survey to the Office of Management and Budget, please do not hesitate to contact BEA.

Sincerely,

  
Dennis J. Fixler  
Chief Statistician

Attachment

**ATTACHMENT**  
**BEA's Use of Annual Retail Trade Survey Data**

<b>ITEMS USED</b>	<b>BEA USE</b>
Retail sales, sales taxes, gross margins	Personal Consumption Expenditures in the NIPAs
Merchandise inventories, inventory valuation methods, merchandise purchases, inventory outside the U.S.	Change in private inventories component in the NIPAs
Retail sales, merchandise inventories, inventory valuation methods, merchandise purchases, sales taxes	Output for the benchmark I-O accounts and the annual industry accounts.

**Quinquennial Collection (formerly from Business Expenses Supplement)**  
**Annual Retail Trade Survey**

<b>ITEMS USED</b>	<b>BEA USE</b>
Annual Payroll before deductions	Intermediate Inputs
Employers cost for fringe benefits	Intermediate Inputs
Contract temporary staff and leased employee expense	Intermediate Inputs
Expensed equipment	Intermediate Inputs
Purchase of packaging materials and containers	Intermediate Inputs
Purchases of other materials, parts, and supplies (not for resale)	Intermediate Inputs
Commission expenses	Intermediate Inputs
Expensed purchases of software	Intermediate Inputs
Data processing and other purchased computer services	Intermediate Inputs
Purchased communication services	Intermediate Inputs
Purchased repairs and maintenance to machinery and equipment	Intermediate Inputs
Purchased repairs and maintenance to building structures and offices	Intermediate Inputs
Leased and rental payments for machinery equipment and other tangible items	Intermediate Inputs

**BEA Use of Business Expenses Supplement to the Annual Retail Trade Survey**  
(continued)

Leased and rental payments for land, buildings, structures, store spaces and offices	Intermediate Inputs
Purchased electricity	Decomposition of intermediate inputs in capital (K), labor (L), energy (E), materials (M), and purchased services (S) (KLEMS)
Purchased fuels	KLEMS
Water sewer refuse removal and other utility payments	KLEMS
Purchased transportation shipping and warehousing services	Intermediate Inputs
Purchased advertising and promotional services	Intermediate Inputs
Purchased professional and technical services	Intermediate Inputs
Depreciation and amortization charges	Intermediate Inputs
Government taxes and license fees	Intermediate Inputs
All other operating expenses	Intermediate Inputs
Total Operating Expenses	Intermediate Inputs
Interest Expense	Intermediate Inputs
