Introduction

This booklet should be used together with other booklets of the *Comptroller's Licensing Manual*. The principal users of this booklet are Licensing staff who should refer to the "[Business Combinations](#)" and the "[Change in Bank Control](#)" booklets for discussion of matters relevant to filings requiring comments to other agencies.

The Comptroller of the Currency (OCC) responds routinely to requests for comments from:

- The Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Federal Reserve Board (FRB) on competitive factors in business combinations (bank mergers, consolidations, and purchase and assumptions).
- The FDIC, the OTS, and the FRB on anti-money laundering efforts of national banks involved in a merger.
- The FDIC, OTS, and the FRB on proposed acquirers of state banks or thrifts under the Change in Bank Control Act.
- The FRB on Regulation K¹ applications from national banks, acquisitions of national banks by existing bank holding companies, or proposed holding company formations by national banks.

Application Process

General

On behalf of the OCC, the appropriate district office or Headquarters Licensing (HQ LIC) normally responds to supervisory, anti-money laundering, and competitive concerns on all requests from federal regulatory agencies within 30 calendar days of the date on which the notice is sent. If the OCC cannot respond to the requesting agency within that time, it informs the agency by telephone that comments will be forthcoming.

The OCC will respond within 10 days of receipt of a request for competitive factor reports if the FRB, FDIC, or OTS declares an emergency requiring expeditious action.

¹Regulation K addresses foreign operations of FRB member banks and applications pertaining to the establishment of foreign branches. Edge Act and Agreement corporations, investments in foreign companies and subsidiaries, and requests to engage in new activities are not specifically authorized by the regulation.

Negative Comments

The Deputy Comptroller for Licensing may make negative comments or provide comments to the requesting agency on matters that present a significant supervisory, CRA, or compliance concern or raise a significant legal or policy issue. The Deputy Comptroller also provides comments, if negative, on competitive factors, anti-money laundering efforts, and changes of control, as well as when recommending the FRB deny an acquisition of a national bank by a bank holding company. In addition to providing negative comments or recommending the denial of a holding company acquisition application, the OCC also may disapprove the application filed with the FRB. If the OCC indicates disapproval within 30 days of the FRB's request for comments, the FRB must hold a hearing on the application and decide whether to approve the application based on the information presented at the hearing.

Section 327 of the USA PATRIOT Act of 2001 (the Act) requires federal banking regulators to consider the effectiveness of a financial institution in combating money laundering activities (including overseas branches) in ruling on a merger application. The supervisory record concerning a particular financial institution that has been developed and maintained by the responsible federal regulator generally will contain sufficient anti-money laundering compliance information to satisfy the Act. Nonpublic OCC information, nonpublic third-party information and any other sensitive information shared with other federal banking regulators under the Act is not part of the public record.

Negative responses are general and indicate the nature of the concern, but do not include CAMELS ratings or other sensitive data.

Holding Company Consideration

The OCC has a substantial and ongoing interest in filings made with the FRB to acquire, either directly or indirectly through another corporate entity, a national bank. If the acquiring group holds the stock through a separate corporate entity, that entity normally will be considered to be a bank holding company subject to FRB regulation and examination. A group proposing to control a national bank through a bank holding company must apply to the FRB for approval of a holding company application. The FRB provides the OCC with 30-days prior notice and opportunity to comment on the filing prior to the FRB's decision.

Sometimes an investor acquires a national bank through a holding company with the intent of changing the character of the bank's business; for example, substantially expanding into new types of lending or new geographics. In that instance, the comment on the proposal to the FRB is the only avenue the OCC may have to ensure that its fundamental supervisory concerns are addressed unless the bank is subject to a significant deviation condition or 12 CFR 5.53.

Additionally, if management wishes to substantially change the composition of the bank's assets or activities, it may need to submit to the OCC an [application](#), [business plan](#), revised [articles of association](#), or submit other materials for review prior to implementing the proposed change or acquisition. Refer to 12 CFR 5.53 and the OCC's guidance in the "[General Policies and Procedures](#)" booklet of the manual.

The OCC will review each FRB comment request carefully to determine if the filing contains plans to change the character or otherwise significantly alter the bank's operations. If so, the FRB and the OCC work closely together to obtain all necessary information about the filing, including conducting a joint field investigation.

At the OCC's request, the FRB normally will ask the holding company to commit to provide the OCC with a 30-day notice prior to implementing its Internet plan or otherwise significantly altering the existing bank's operations. This prior notice will ensure that the OCC has time to review the proposal, solicit any necessary information, and resolve issues or concerns. If a holding company commitment cannot be assured, the OCC may choose to issue adverse comments to the FRB or to disapprove the proposal. An OCC disapproval that the FRB receives within the 30-day timeframe automatically requires the FRB to hold a hearing. Accordingly, the OCC encourages filers to provide commitments that are satisfactory to the FRB and OCC.
