Provider Page Help & FAQ

Account Information Area

The top section of the Provider page shows the basic contact information for that training provider, along with those individuals that have access to the provider's AFSP account. If any changes need to be made to this information, contact the AFSP Help Desk.

Actions Area

Any administrative actions that the Provider may be prompted to take, from validating a student's application for training to confirming training completion, will be listed in this new space. Click the name of the Action you wish to take, and a list of training requests will list at the bottom of the page. This is also the space where Category 4 applications can be submitted (if applicable).

Editing Provider Account Information

The Administrator of a Provider's account has the ability to update and modify school contact information. Administrators are asked to include the physical address of their school location. If training is based out of multiple locations, include the address of each location.

Search Area

A search function is now available! Enter any combination of training request numbers, student names or IDs, or criteria from the drop-down menus and click "Apply Filters". It is a good idea to use the Clear button before running a search. Search results can be sorted by clicking the heading of each column; this toggles the results in an ascending or descending order.
