To:FN-OMB-OIRA-Submission <OIRA_Submission@omb.eop.gov>;

Hi,

I write to you to express my desire for the ACS to retain the yearly marriage questions in the ACS. As a family demographer, I use this information constantly in both my academic and business life. Marriage and other romantic relationships play a key part in people's lives. Tracking these phenomena is crucial to the well-being of the country as the ACS is a primary source for understanding how society works, marriage being a key part of it.

Best,
Spencer James
