**Subject:** Control number 1235-0001

In reviewing Control Number 1235-0001 (Information Collections Pertaining to Special Employment Under the Fair Labor Standards Act) I have the following comment to make:

The additional information required on WH-226A is quite extensive for each individual employee and will take a great deal more time to complete

The questions I need clarified are:

- 1) As a renewing applicant am I correct in concluding the only two forms that would affect our renewal are WH-226 and WH-226A?
- 2) Page 4 of WH-226A (k) refers to the Productivity rating of the employee that was determined by the employees time study. The Productivity Evaluation form we use refers to the 90/10 Performance Rating. Am I safe to assume that is the same thing and I could enter that 90/10 Performance Rating in column (k) on page 2?

Thank you
