Submitter Information

Name: Allen W. Hurlburt

Address:

1979 Co. Rd. 106

Tulelake, CA, 96134

Email: hurlburt@cot.net

Organization: H & M Gopher Control

General Comment

We applied for registration of our equipment to control burrowing rodents utilizing pressurized exhaust. We were asked to submit additional information concerning the makeup of the exhaust used. We got the breakdown of the exhaust from the engine manufacture, Kohler motors, set the information to the Agency. We were notified that the information was received and no additional information was needed. This process had gone on for over a year and a half with no resolution. We have organic farmers that are having serous financial losses due to machinery breakdowns, dirt in their hay and stand loss from gopher, ground squirrel and prairie dogs . It would seem that there is a serous breakdown within the Agency to complete the tasks that it is charged with.
