In addition to the instructions provided herein, applicants with specific questions are encouraged to contact the Permits Office at (727) 824-5326 or toll free at (877) 376-4877 between 8:00 a.m. and 4:30 p.m. ET, or visit the SERO Permits website at **sero.nmfs.noaa.gov/permits**.

Please consult the U.S. Code of Federal Regulations whose guidance for application requirements, permit eligibilities, and related information will always prevail. NMFS will return incomplete or illegible applications.

General Instructions:

Aquacultured Live Rock (ALR) permits issued to one or more permit holders allow the deposition to and harvest of materials from a specific geographic location, or *site*. Use *this* application to <u>renew</u> an ALR permit for a site for which you are listed as the permit holder on the most recent permit.

Use the **Federal Permit Application for Aquacultured Live Rock (NEW)** application to request an ALR permit for a site that has not previously been issued an ALR permit.

If you wish to apply as a new permit holder for an already existing site, see section below on how to conduct an ALR <u>site transfer</u>.

NMFS will not process requests to renew permits until applicants meet all reporting requirements (e.g., deposit reports) specific to the aquacultured live rock fishery. Ensure you comply with all reporting requirements in advance of any renewal application requests to avoid delays.

Under the current agreement between NMFS and the U.S. Army Corps of Engineers (USACE), the total acreage of all aquacultured live rock sites maintained by a single permit holder in Federal waters off the coast of Florida <u>may not exceed 1.0 acres</u>. Applicants desiring to maintain sites that exceed this 1.0 acre limit must contact their local USACE office (http://www.usace.army.mil/Locations/) and inquire about the individual permitting process for the deposit of aquacultured live rock in Federal waters off the coast of Florida.

SECTION 8 - SMALL BUSINESS OR ORGANIZATION CERTIFICATION

(All Applicants must complete this section)

Complete this section for the business(es)/organization(s)/ sole proprietorship(s) listed in section 5 to whom the permit will be issued.

When proposing regulations, the National Marine Fisheries Service (NMFS) is required to analyze the economic effects of such regulations on small entities (e.g., businesses and non-profit organizations). As part of the required analyses, NMFS must determine if permit applicants are large or small entities according to standards established by the Small Business Administration (SBA) and NMFS. Only one standard applies to each business or non-profit organization. The standard is based on your primary North American Industry Classification System (NAICS) code, which indicates the industry your business or non-profit organization is primarily engaged in. The industry you are primarily engaged in is based on the activity that generated the greatest gross receipts (sales) in the most recent calendar year. The SBA has also established "principles of affiliation" to determine whether a business concern is "independently owned and operated." In general, businesses are affiliates of each other when one business controls or has the

For this assessment, please estimate your annual gross receipts (sales) OR number of employees (see chart below to determine which estimate you need). Estimates of annual gross receipts must be for all businesses with which you are affiliated. Estimates of the number of employees must include all full, part-time, and temporary employees of all businesses with which you are affiliated. For example, if two businesses jointly own or lease a vessel, it is highly likely they are affiliated. If you have any questions about affiliation, please contact Mike Travis, SERO Economist, at mike.travis@noaa.gov or call 727-209-5982.

Please base your responses on the most recent calendar year for which you have complete data regarding your business' or organization's operations, and specify that calendar year in the appropriate box below
