

FILE NUMBER:

You are now approaching your 70th birthday, and we would like to take this opportunity to remind you about a very important provision of the Government life insurance policy you selected. Your policy, , is known as a Modified Life policy. This means that the amount of your insurance coverage will automatically reduce by one-half from its present face value of \$ on the day before your birthday. Even though you will have only half the coverage you had before, **your premiums will remain the same** as before your 70th birthday. This reduction feature is explained in all of our pamphlets and applications describing the Modified Life plans and it is clearly stated on the first page of your policy that there is an "Initial Face Amount" and an "Ultimate Face Amount" of insurance. This is also explained in the policy's first paragraph.

The idea behind a Modified Life policy is that you receive the maximum coverage for the minimum price up to age 70. Premium costs are kept low because of the face value reduction by one-half at a later date. The low rates of the Modified Life plans are determined by actuarial tables and made possible only because of this reduction. This is considered ideal coverage for the many veterans who find that their insurance needs are less as they grow older. For many individuals this happens because because of such factors as mortgages being paid off, children having grown, accumulated savings or entitlement to pensions, and so forth.

If you find that you still need the same amount of coverage, we do offer additional whole life insurance coverage. You may purchase this policy at an additional cost to replace the insurance that will be lost when your policy reduces. You can buy the replacement policy without answering any health questions. Just complete the application on the reverse side of this letter and return it before your 70th birthday. Since your premiums are currently being paid by deduction from VA benefits, no payment is required with your application, if your compensation payments are sufficient to cover the additional premium. We will take the necessary action to increase your deduction.

You do not have to buy the full amount of the coverage you lose when your policy reduces. Replacement insurance may be purchased in multiples of \$250, but not less than \$500. You may buy any amount of replacement insurance coverage up to the amount that will be lost. The **monthly** premium required to restore full coverage is \$\frac{1}{2}\$. If you wish to buy less than full replacement coverage, please call our toll free number below for the correct premium rate.

Remember - you must apply for the replacement policy before your 70th birthday.
