Subject: Proposed new application

I am emailing you in regards to the proposed new application for Authority to Employ Workers with Disabilities at Subminimum Wages. As I looked at the application it seems to be pretty much the same process as before with the exception of the added WH-226A form in which we must now supply on the additional sheet attached to that form a list of all of the workers at each site with the questions (a-n). The questions seem simple enough to answer, however with our agency we have roughly over a hundred consumers working at our job sites and some are at multiple job sites in a given week. This additional requirement for the application will be more time consuming. If I can be of any further assistance please feel free to contact me. Thank you!
