Notice to Customers Making Payment by Check: As part of a Department of Treasury initiative, if you pay your account by check, it will be converted into an electronic funds transfer (EFT). This means the bank will copy your check and use the account information on it to electronically debit your account for the amount of the check. The debit from your account will usually occur within 24 hours and will be shown on your regular bank account statement. You will not receive your original check back. The bank will destroy your original check but will keep the copy of it. If the EFT cannot be processed for technical reasons, you authorize us to process the copy in place of your original check. If the EFT cannot be completed because of insufficient funds, the bank may try to make the transfer up to 2 times at which point your account will be subject to additional administrative charges.
