FERC: Commission Information Collections
Activities (FERC - 537); Comment Request;
Extension (Docket No. 1018-13-000)

I am in favor of the collection of all information necessary for the proper performance of the functions of the commission. I am not in favor of deciding to collect less information because it is a burden. Using automated collection techniques or other form of technology is fine as long as it is not required for collection.
