Commission*

Secretary of the Commission

888 First St. NE

Washington, D.C. 20426

0 75 40
100% RECYCLED

I oppose the above proposal because it minimizes the input from the citizenry that will be directly affected by energy projects. We the PEOPLE are the most important voices to be heard from a functioning democracy, especially those directly affected by the FERC activities.

Sincerely, Laurie Lubsen
