Special Permit/Low-use Marine Protected Areas Coral Reef Taxa Daily Catch Report

Name of Licensee:			Coral Reef	Ecosystem	Permit No.		
Vessel Name:	Coral Reef Ecosystem Permit No						
Area Fished:	Fished: (follow regional fishing area designations)						
Type of Gear Used (on	e report form	for each hau	l with each	gear type p	er day):		
Date Gear Set:/_	Start:	tart: Units of Gear Set: End: Units of Gear Lost:					
Date Gear Hauled:	End:	Units	of Gear Lost:				
	ea Surface Temperature: Average Depth:						
Target Species (list all)							
Observer on board?							
If gear was lost, give ex		to reason wh	y (no penal	ty for lost g	ear).		
			-				
Describe any observed	damage to th	e coral reef a	nd how it o	ccurred.			
Species	No. Caught	Lbs. Caught	No. Kept	Lbs. Kept	If discarded, why?	How processed?	
Protected Species* Ob	oservations a	nd Interaction	ns				
Enter Seal & Turtle numbers: specify other and number			Monk Seal	Turtle	Other (Species name and number)		
Observed in area							
Observed in vicinity of gea	ar						
Interfering with fishing op	erations						
Preying on catch							
Entangled released alive							
Entangled released dead							
*Protected species include	de all whales,	dolphins, seab	irds, and sca	lloped hamm	nerhead sharks.

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, NMFS Pacific Islands Region, 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.

This information is being collected to provide the information needed by NMFS to regulate and monitor the coral reef fisheries and resources managed under Fishery Ecosystem Plans (FEP) for American Samoa, Mariana Archipelago, Hawaiian Archipelago, and Pacific Remote Island Areas Federally permitted coral reef fisheries and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information provides a basis for determining whether changes in management are needed to sustain the productivity of the stocks or to respond to interactions between fishing vessels and protected species and to address economic problems in the fishery. The information is also used to provide a basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Responses to the collection are required to obtain the benefit of the FEPs (50 CFR Part 665). Data provided concerning the vessel and/or business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec.402(b)). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Privacy Act Statement

Authority: The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 et seq.

Purpose: The Magnuson-Stevens Act requires that conservation and management measures must prevent overfishing while achieving, on a continuing basis, the optimum yield from each fishery. Vessel logbooks are essential tools in the management of fishery resources. Section 303(a)(5) of the Magnuson-Stevens Act specifically identifies the kinds of data to be collected for fishery management plans (FMPs).

Routine Uses: The Department will use this information for effective fishery management. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in the COMMERCE/NOAA-6, Fishermen's Statistical Data.

Disclosure: Submission is mandatory for those persons falling under the requirements of 50 CFR 665.14. If the information is not provided, permit status may be affected.
