Hi,

I appreciate the time and effort gone into creating new forms. They look great; easy to read and understand. One comment on the Definition of a Serious Health Condition, it states:

"A period of incapacity of more than three consecutive, full calendar days, and any subsequent treatment or period of incapacity relating to the same condition"

I realize this is not new language. However, we have certain work groups (firefighters, police officers) that will work one day on, two days off, one day on, four days off. So they will never meet the "three consecutive, full calendar days." Perhaps it should say "three consecutive, full work days."

Thanks,

Deana Dean
