TERMS OF CLEARANCE: This collection is approved for one year. Consistent with the Surface Transportation Security Priority Assessment Implementation Plan, TSA should work with the DoT to implement an integrated Federal approach for security assessments, audits, and inspections to produce more thorough evaluations and effective follow-up actions for reducing risk, enhancing security, and minimizing burdens on assessed surface transportation entities. TSA should also coordinate data requests with the established single data repository to avoid redundant efforts, take advantage of existing data sets, and establish data access control. Within six months TSA should provide to OMB a status report regarding these efforts.
