we need to shut down foreign employment applications. we have 26 million americans out of work., totally out of work. we have economic devastation in america. there is no need to bring any foreign worker into this countrty at this time. this form shoudl be shut down and not issued at all anymore. the lies told on these forms by rich corporations whose sole objective is to pay less and less salaries to their workers is obnoxious and seeks to make american workers into slaves for their profiteering,

we dont need any foreign workers here. let them stay in their own country and make it better. we have plenty of americans who are gradauting college and high school and need jobs who are wijlling to work andwho need jobs. the us dol and other agencies take bribes from ridch corporations and are hurting american workers daily. the employers are lying to pay less salaries and hurt american workers and make themselves into billionaires.

that is sick and pervderted and needs to be stopped immediagely. we certainly have teh billkiosairs to prove this is going on.
