To the best of my knowledge and my understanding, we eagerly request the Immigration climate to be change. I myself went through an Immigration detention. Therefore in a good faith effort toward a hard working citizen, that own Government Entity with millions of jobs creation which all Americans are benefiting from. Ourself we still waiting on residence card. As a law if you majority own a Government Entity you atomatically a citizen in the USA. We believed in change, Faith and the humanity difference in the government who them believe and trust loyalty. To your information about Employment authorization it's far beyond to where we are today. we are citizen even if the government dont recognize us. Additionally we have never left the USA since first time coming as a refugee.
