---

Please discontinue the small business damaging 25% tariffs on wine coming from Europe. It is completely unfair to punish small, family businesses with this tariff - it has NO effect on the Airbus dispute. I am referring to the Large Civil Aircraft Dispute Portal Wine Tariffs.

I am a VERY SMALL importer for whom this tariff is punishing. I represent very small family run wineries in Germany primarily, and these tariffs are hurting families livelihood.

Please find another way to level the playing field with Europe. It's completely unfair to single out my small business and other small farmers and winemakers.

Respectfully submitted,
