Comment

Hello,

I am writing to express my opinion regarding the increased tariffs as a result of the Large Civil Aircraft Dispute. As an importer working with very small wineries in France, it has become increasingly difficult for both them and my own company to see any profits with the current 25% tax. The producers I work with have small farms and are working in harmony with the land, and their activities are entirely unrelated to large corporations, including Airbus and any large aircraft affiliates. The current and proposed further tariff deeply impact their ability to sell their products to the US, which is a large market that they rely on heavily. I am writing for your humble consideration to remove the tariffs from the products of these tiny farmers so that they may continue to make a living doing what they love.

Thank you for your time.

Sincerely,
Lexie Jordan
