Comment

We fund government institutions with the taxes we pay and we have the right to voice our concerns and objections, by making it more difficult for us to be heard you're making this process elitist and inaccessible. Please do not change the portal in order to make submitting comments more difficult for the Airbus case comments. Normal people working in industries affected by these misguided tariffs have more than enough hard work to do without having to jump through never-ending bureaucratic hoops just to be heard - stop making it so difficult for normal people to participate in these discussions.
