Comments for Docket No. FAA-2020-0228

3/10/20
Submitted via
Electronic Submission

Response to FAA-2020-0228 - Items c and d

In response to the request for comments for FAA collection of DUI information, we offer the following suggestion to improve the quality of data collection and reduce the burden on the public:

- Create and make available an official form for the collection of the requested information. The form would be completed by the airman making the report. We recommend the following data fields and instructions be included:
 - Basic Pilot Information (Name, Address, Certificate Number, etc.)
 - Date of Event or Action
 - Description of the Event or Action
 - Check Boxes for Common Events (Arrest, Administrative Action, Drivers License Suspension, etc.)
 - Instructions for completion and submission of the form
 - Notice to advise the airman of the future reporting requirements related to the event or action (additional 60-day report, future medical applications, etc.)
- The use of an official form offers the following advantages:
 - Faster and more efficient completion by the airman
 - Faster and more efficient review by the FAA Aeromedical Division
 - Reduced likelihood of missing data and/or necessary follow-up
 - The opportunity to include completion and filing instructions to the airman on the form and on an associated instructions sheet.

Sincerely,

Christian Pezalla 3/10/2020
