I believe that if this land has the title or status of refuge in it there should be no hunting or trapping in it. Sportsmen and women already have a huge portion public and private land to hunt on. There is no need to hunt and trap everywhere. I live near the Lee Metcalf wildlife refuge in Stevensville Montana and now they want to be able to hunt bears! People that don't hunt need a place they can go to and enjoy nature and not be worried their safety is at risk. It's time to respect the non-consumptive public. Marc Cooke, Stevensville, Montana
