Dear Acting Chief Beaumont,

I'm writing with inquiry regarding the recently-published Department of State notices of information collection, DOS-2020-0027 and DOS-2020-0028. I have a few questions with which I'm hoping you might be able to assist.

First, would it be possible to access the actual information collection instruments (the "forms" and "worksheets" that the examining panel physician fills out, as described in the notices)?

Second, for how long will the data collected be accessible to the Department of State?

Third, will any or all of the data collected be accessible to the Centers for Disease Control?

Fourth, will the applicant who undergoes medical examination be able to access the records of his or her examination?

Thank you and best,

Elizabeth Foydel
