I don't agree with the proposed change to the confidentiality terms expressed in the proposed SBA form 641. As a SBDC client, I don't feel comfortable agreeing to surveys, or being solicited with services that I may not want. If SBA needs more information they should go through the SBDC with the usual respect for privacy. It would be more simple to ask separate questions if the info is necessary. It is not clear what purpose is served by soliciting a small business for other services, nor how this is an appropriate use of information collection. I do not want to deal with SBA agents, whomever they might be. Conclusively, I am in disagreement with the proposed changes to the client privacy policy.
