This seems to imply that we cannot receive SBDC services if we don't check the "Yes" box. Doesn't this go against the whole purpose of this program?

The information requested in section 11 of the form 641 is confusing and needs to be written in clearer, simpler language.

Are we agreeing to what is in the first paragraph where the "Yes"/"No" boxes are, or to all of the information below that? Are we agreeing to surveys, or will we also be solicited for services we don't want?
