Language: I permit SBA or its agent the use of my name and address for SBA surveys and information mailings regarding SBA products and services.

I don't think you need you be collecting more information than you need to nor allow a business name and address to be used by "some agent" for whatever use they deem necessary. In my line of work we are governed by HIPPA. It's privacy for a reason. Let's not have a negative impact on the ability to counsel small business in a confidential manner.
