The justification for this form says SBA will comply with the E-Government Act, but that statute doesn't allow SBA to violate other statutes like the Small Business Act. Does the information collection mean SBA is choosing to follow one law but not another?

Respectfully, it is doubtful that the SBA will be able to protect my information. There are too many examples of government agencies failing to protect personal information. Also, this suggests more dissemination of personal information which can only lead to less security.

I enjoy a good working relationship with my SBDC. I don't want to be solicited by SBA or its agents.
