nato dosnt need to be living in the usa for any amount of time so there is no need for them to bring wives or children or husbands here at all. they can come and then go home into their own country which is where they should be. i also am totally against a and g people who come here. this agency is so dismissive of the public that they dont even bother to explain who a and visitors are. anyway, keep them all out. we dont need more people in this country. we need alot less. we have too many foreigners in this country telling american citizens what to do. shut the door tight.
