U Visa, for the witnesses in crimes. This has been and will be used to fraudulently implicate innocent citizens and residents of the USA. I do not support this type of visa, I believe the person could provide a written statement with supporting evidence and be placed in a safe location within the nation of their origin, ie, they can and should return to their country of citizenship.

In this day of immediate connectivity and near universal cell phone and computer access worldwide the witness can still provide relevant information even from a country across the world.

There are other, more expedient, legal methods to visit the USA for future lawful visits or even residency if they so choose. It is unnecessary to retain them here purely for law enforcement, and this may in fact turn out to be a method of detaining a citizen of another country. Citizens of other countries should be repatriated expeditiously so they can have the protection they deserve from their own government and populations.
