

# Survey for Cancer Health Disparities Interest Group

Thank you for your interest and continuing participation in the group. We've initiated our group since February 2020 and have been organizing monthly seminars since then. With your tremendous support, we've had around 40 participants on average across the meetings.

We are turning into our second year and would like to hear your voice on seminar format and topic areas of interest. We will do our best to coordinate our 2021 meetings upon your suggestions.
