End the H1B visa lottery system! Force our employers to take American citizens. Residency programs training doctors are allowing more and more of Americans too talent to go jobless, indebt, and their homes and careers wrecked. J1 visas should also not be allowed for jobs there are qualified Americans to take positions. We want the best doctors to be here and the best are american people. Foreign immigrants can be cheat on exams and produce fraudulent documents Look at the college admission scandal. We need to employ our own people first. These programs are a detriment to Americans top scholars who worked hard to get into medical school and get through only to have a visa take their jobs. We need politicians and legal protection of our jobs. Too many programs are using visas for diversity and don't realize how diverse american people are in reality. We are racially, age, gender, talent, etc diverse. These measures don't go far enough to protect American workers. We need to from a hiring aspect limit openings to american people only first and foremost and only recruit foreigners if hiring an american is impossible!! We are being discarded by our own country and we need more help and protections.
