i believe we should not issue any more of this form in this pandemic. i believe we know we have a problem with these forms because those who come here lie and never leave. they are all still here and we have no way to tell if they left or not. why are we allowing these foreigners to walk around our country so liberally. why are we allowing these foreigners to stroll around the USA and get a lot of freebies when they are here unlawfully. and this agency allows that unlawful conduct of never leaving. i don't think this form should be allowed anymore. obviously this agency has no control over the use of this form and allows endless lying by foreigners in its use. it is a form used to deceive the American population of what is actually going on
